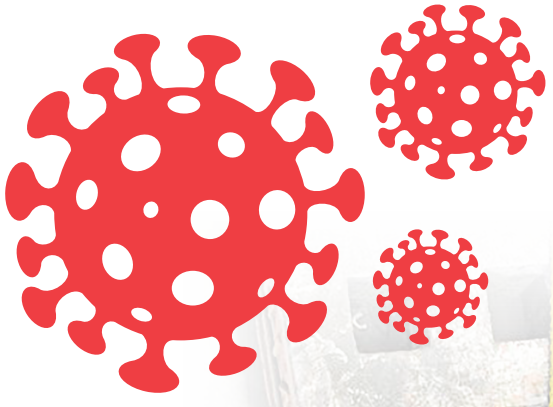
HARNESS AND WEBBING

DISINFECTING

WE PROVIDE CLEANING AND DISINFECTING SERVICES THAT COMBAT THE SPREAD OF NOVEL CORONAVIRUS, THE CAUSE OF COVID-19.



1. **Upon arrival,** harnesses and/or web slings will go through a detailed visual inspection at an authorized Mazzella facility.

2. **Once items pass inspection,** Mazzella's disinfection team will begin to attack and destroy germs and viruses.

   - Active ingredients in our cleaning and disinfecting compounds have been laboratory tested and proven to eliminate 99.999% of all pathogenic bacteria and viruses.
   - Dirt is demolished and odors are removed!
   - Test results prove that the disinfectant has no effect on the integrity of the webbing material.

3. **After disinfecting,** all items will again go through another visual inspection.

4. **Once passing this final inspection,** they will be individually bagged, tagged and promptly shipped back to you.
