Zeeco Opens New Midland Office

USA – BROKEN ARROW, OKLAHOMA – Zeeco, Inc. announced today its new office in Midland, TX is fully operational and is providing local sales and field service support, aftermarket parts, combustion rental equipment, repair services, new equipment staging, and more to the Permian market.

The new location will function as a central base of operations for Zeeco's Global Field Services team and is part of the company's broader initiative to support one of the most critical regions of America's oil and gas industry. "We're on a mission to provide unparalleled support to our Permian customers and this new base of operations provides the foundation to do just that," Kevin Book, Director of Upstream Sales at Zeeco said.

The Midland office is strategically located to enable sales and service teams to respond quickly to the needs of customers. "We've made significant investments to deploy necessary resources for our customers in the Permian market," said Darton Zink, owner and CEO of Zeeco. "Our presence in Midland ensures rapid deployment of our service team and equipment experts, as well as locally sourced replacement parts and rental equipment to support our customers' operations in the region."

About Zeeco:

Founded in 1979, Zeeco has steadily become the world leader in the design and manufacture of advanced combustion and environmental solutions. Headquartered in Broken Arrow, Oklahoma, USA, Zeeco is a privately held business with more than 1,000 employees and 25+ global locations on virtually every continent. The company has executed 40,000+ projects, including ultra-low NOx industrial burners, flares, hazardous waste incinerators, vapor control, and ancillary products for the refining, production, petrochemical, LNG, power, pharmaceutical, biogas, and other industries.

ZEECO® products are designed to reduce emissions, optimize processing industries, and maximize operating efficiency while meeting all global environmental compliance requirements. Zeeco also provides comprehensive aftermarket parts, service, and engineered solutions as well as rental equipment. Zeeco's worldwide headquarters is located on a 250-acre campus which includes a 100,000 ft² (9,290 m²) manufacturing facility, and the world's largest, industrial-scale research and test facilities.
