Zeeco Asia Earns ISO 9001-2008 Certification

Zeeco Asia, located in Seoul, Korea, has achieved its ISO 9001-2008 certification for marketing and sales, project management, design and engineering, subcontracting for manufacturing, execution, installation and commissioning, and aftermarket sales and service of flares, burners, and spare parts.

Zeeco Asia serves customers in the refining, production, petrochemical, LNG, pharmaceutical, and biogas industries. ZEECO products include process, power and duct burners, gas and liquid flaring systems, and thermal oxidizers, as well as ancillary equipment. The company's aftermarket support includes parts, equipment repair, field service, and engineering solutions.

“The best sales advantage and gross margin generator for Zeeco Asia is our reputation for proven quality and performance,” said Boo Woon Choi, President of Zeeco Asia. “We are very grateful to receive this certification that ensures the highest quality of products, manufacturing, and aftermarket services in the industry.”
