

ABOUT US

Helping businesses succeed through the power of video

Video is the future of business in this digital-focused world. Vidyard uses video to change the way companies connect and communicate. We help organizations of all sizes humanize their communications and personalize their customer experiences.

Record and send videos to reach prospects, connect with customers, and change the way you work

Vidyard is built for business. Our platform goes beyond just video hosting and management. Connect with viewers through personalized video experiences. Explore analytical insights about your audience. Turn those insights into action through integrations with top enterprise tools. Prove the impact of your video programs.

Global leaders and industry pioneers on the Fortune 500 list and beyond rely on Vidyard to power their video strategies and turn viewers into customers.

200+

Since 2010, Vidyard has grown from a team of 2 to over 200.

4 million+

Over 4 million people use Vidyard to create and share videos.

60,000+
