

EXPERIENCE THE VALUE OF VIRTUAL VISITS

An essential benefit for providers and patients, virtual visit capabilities are integrated into NextGen® Office.

Why telehealth?

Virtual visits connect you with your patients to deliver high-quality care anytime, anywhere, on any device.

Why now?

- Virtual visits help lower patient and provider risk of infectious diseases, like COVID-19
- Some states are mandating coverage of virtual visits as the same reimbursement as an office visit
- Medicare has made substantial progress towards enhanced telehealth reimbursement
- Telehealth can help your practice stay competitive in a more consumer-oriented healthcare market

Reimbursement guidelines are in a constant state of change and can vary by state, practice, and payer. NextGen Healthcare can help you navigate the telehealth landscape.

Telehealth use cases

- Increase convenience for you and your patients through cloud-based access on any device, anywhere
- Screen patients who may be contagious or otherwise should not come into the office
- Manage medication refills without tying up phone lines
- Provide virtual follow-up visits
- Enable review of lab results, x-rays, and ultrasounds outside the office
- Access patients with limited mobility
- Extend patient care to after-hours
- Connect Medicare or Medicaid patients at originating sites with off-site specialists
- Make chronic care management more accessible

How your practice and patients can benefit from virtual visits

- Expand patient access
- Increase patient satisfaction
- Enhance practice efficiency
- Optimize cost
- Drive revenue goals

Features that make virtual visits easy

In-visit features customize the patient experience

-  Simple, secure login from the Patient Portal
-  Accessible to patients from their smart phone, tablet, or computer
-  Customizable patient email and text reminders
-  Transition calls to integrated virtual visits

The power of virtual visits integrated with NextGen Office ensures a smooth user experience tailored to your workflow. As a result, you can easily connect with your patients on any device while providing a consistent experience, whether they see you in the office or via video.

Satisfy patient demand

of consumers want providers who offer video visits

Source: Accenture 2019 Digital Health Consumer Survey

“This telehealth solution is a complete game changer—integration is logistically doable, and the video quality is the best. Since offering patients more appointment access, our practice has grown as well.”
