

CONNECTING PEOPLE, TECHNOLOGY, AND THE EDGE WITH A SEAMLESS EXPERIENCE

At CompuCom, we've seen the "office" as we've known it for decades change rapidly. Without reliable support, collaboration, and connectivity strategies for their increasingly distributed workforce, organizations will get left behind.

OUR FOCUS ON THE END USER

Whether you're a bank branch employee, a retail cashier, or a corporate user at home and the office, you need technology always-on and ready to work when and how you need it, seamlessly.

Our emphasis is on easy-to-use and reliable solutions for the end user that create and support the true digital workplace. This focus enables flexibility, speed, and dexterity, so your people effortlessly connect with the right technology from wherever they work.

OUR GUIDING PRINCIPLES

- **Enable a Ready Now Experience** by providing and supporting uninterrupted solutions and services
- **Deliver a Concierge Outcome** through people and automation, driving increased end-user productivity
- **Strive for a Zero Dispatch Edge** by delivering solutions that reduce the need for onsite services
- **Live Green** by minimizing ours and our customers' environmental impact through sustainable technology, innovation, and processes

OUR SOLUTIONS

- **Workplace Technology** enables the best employee experiences and increases productivity
- **Employee and Technology Support** delivers personalized support through omni-channel options
- **Digital Edge and Security** brings reliable and secure connectivity to any device, anywhere, and anytime
- **Connected Workplace** promotes productivity and ease of collaboration through technology
- **Elite Employee Experience** provides end-to-end services configured to the needs of your business and users
- **IT Staffing Services** offering staff augmentation, direct and contract hiring for your IT needs

As the digital workplace continues to grow and mature, CompuCom, as your trusted partner, will focus on the technology so you and your employees can focus on growing your business.
