

IntegrityCounts Online Speak-Up Web Portal

Your employees are the eyes and ears inside your organization's workplace culture. Allowing employees to safely and anonymously report any ethical misconduct will help them feel more connected and secure within their workplace environment.

Our online speak-up web reporting portal offers SMEs the easiest and safest way to report safety and ethical violations while maintaining anonymity for whistleblowers, leading to better and more effective investigations.

Our Services Include

Online Web Intake Platform

We offer a safe and anonymous ethics reporting web intake form that provides employees, customers, and other stakeholders confidentiality and security when they report any ethical related violation.

Speedy Implementation and Quality Service

Our high quality and attentive implementation process helps to get your organization up and running quickly with eLearning available when you need it.

Data Privacy & Security

WhistleBlower Security's data servers are located in Canada, providing clients with strong data privacy and security capabilities, meeting worldwide privacy standards. We are ISO 27001 Certified.

Benefits of IntegrityCounts Online Web Portal for SMEs
