

RSV Pools, Inc. is pleased to announce its acquisition by **Mr. Simon Harrington**.

Founded in 1995, **RSV Pools** offers its clients turn-key pool management services, including: pre-season maintenance and opening; pool managers, life guards and gate guards; chemicals, test kits, janitorial supplies and first aid supplies: pool, deck and locker room repair and replacement; end of season pool closing and winterizing; pool covers, furniture and shade structures, etc. While the majority of its income is derived from pool management services, pool repair and renovations provide a substantial source of additional revenue.

RSV has grown every year since its inception, and now has approximately 60 pools under management. Although most activity occurs Spring through Fall, RSV is a year-round operation. A full-time management and office staff oversee business operations and client relations. They also recruit, hire and oversee certification of the 700-750 seasonal lifeguards and pool managers that the business employs each summer. RSV stands out from its competition in that it employs only American lifeguards – no foreign workers are used.

Simon Harrington is excited to bring his 25 years' experience as a tennis pro and tennis instruction business owner to RSV Pools. His knowledge of the recreational sports industry and contacts within the sporting and country club community will help open new markets for RSV Pools.

Prime Investments Business Brokers and M&A Advisors acted as intermediary in the transaction. Prime represents business owners in Maryland, Virginia, Pennsylvania, and Washington, DC. Prime's no-upfront fee policy, unusual in the M&A community, has proved attractive to business owners throughout the Mid-Atlantic region.
