CERTIVERSE

Release Notes for Q3 2021

2021 - Q3

Item History

The ability to view the history of an item with the changes that occurred, who made the change and date changed.

Enemy Items

Adding ability to store Enemy Items, which will be used during Automated Test Assembly.

Item Management Enhancements

Enhancements to the Item Management portal for organization administrators to view, edit, and manage items through their entire life cycle.

Welcome Screens Added to Exam Form Templates

The ability to add Start, End and Agreement screens to an Exam, which are displayed for all Exam Forms configured under that exam.
