

COTTON SOLUTIONS

2022

PRECISION CHEMISTRY FOR REAL RESULTS

Vive Crop Protection has the right tools to power up precision in your operation. Our next-generation of innovative products facilitate REAL RESULTS using the Allosperse® Delivery System, a proprietary nano-polymer technology that maximizes crop protection performance and operational efficiency while increasing yield potential and grower profitability.

With a rapidly expanding portfolio that is better than ever, Vive delivers unique solutions with greater value and higher levels of performance - because every bale counts!

2022 COTTON PORTFOLIO AND PROGRAM RECOMMENDATIONS

FUNGICIDES	Contains	AI/gal	Group	Application	Rate/Ac	Rate Comparison	Description	Key Diseases
 AZterknot®	Azoxystrobin (18.4%) <i>Reynoutria sachalinensis</i> extract (10.2%) with Allosperse Delivery System	1.74 lb/gal 1.0 lb/gal	11 P5	In-Furrow* Foliar	7.3 - 13.1 fl oz 7.4 - 10.8 fl oz	Proprietary 3-in-1 solution	First 3-way fungicide that combines a biological with azoxystrobin and the ease of Allosperse for better disease control, plant health and ROI.	Cotton rust, Leaf spot, Rhizoctonia seedling blight
 AZteroid® FC^{3.3}	Azoxystrobin (34.3%) with Allosperse Delivery System	3.3 lb/gal	11	In-Furrow* Foliar	3.5 - 7.0 fl oz 3.9 - 5.8 fl oz	Divide Quadris® rate by 1.65	Best-mixing azoxystrobin available. Compatible with liquid fertilizer. No clogged nozzles or lines. Stays mixed regardless of delays or freezing.	Pythium seedling blight, Rhizoctonia seedling blight
 Xyler® FC	Metalaxyl (31.3%) with Allosperse Delivery System	2.8 lb/gal	4	In-Furrow	3.0 - 6.2 fl oz	Divide Ultra Flourish® rate by 0.7	Trusted systemic control of key seedling diseases in a hassle-free solution. Requires lower water or carrier volume than Ultra Flourish.	Phytophthora, Pythium

* Based on 30-inch row spacing

INSECTICIDES	Contains	AI/gal	Group	Application	Rate/Ac	Rate Comparison	Description	Key Pests
 Averland® FC	Abamectin (8.0%) with Allosperse Delivery System	0.7 lb/gal	6	Foliar	1.0 - 3.5 fl oz	Same rate as Agri-Mek® SC	The only abamectin that mixes perfectly with foliar feeds and other chemistry to control of a wide range of mites species.	Carmine spider mite, Pacific spider mite, Strawberry spider mite, Two-spotted spider mite
