

PEANUT SOLUTIONS

2022

PRECISION CHEMISTRY FOR REAL RESULTS

Vive Crop Protection has the right tools to power up precision in your operation. Our next-generation of innovative products facilitate REAL RESULTS using the Allosperse® Delivery System, a proprietary nano-polymer technology that maximizes crop protection performance and operational efficiency while increasing yield potential and grower profitability.

With a rapidly expanding portfolio that is better than ever, Vive delivers unique solutions with greater value and higher levels of performance - because every ton counts!

2022 PEANUT PORTFOLIO AND PROGRAM RECOMMENDATIONS

FUNGICIDES	Contains	AI/gal	Group	Application	Rate/Ac	Rate Comparison	Description	Key Diseases
 AZterknot®	Azoxystrobin (18.4%) <i>Reynoutria sachalinensis</i> extract (10.2%) with Allosperse Delivery System	1.74 lb/gal 1.0 lb/gal	11 P5	In-Furrow*	7.3 - 13.1 fl oz	Proprietary 3-in-1 solution	First 3-way fungicide that combines a biological with azoxystrobin and the ease of Allosperse for better disease control, plant health and ROI.	Crown rot, Pythium damping off, Early blight, Late blight, Rust, White mold
				Foliar	7.4 - 22.1 fl oz			
 AZteroid® FC^{3.3}	Azoxystrobin (34.3%) with Allosperse Delivery System	3.3 lb/gal	11	In-Furrow*	3.5 - 7.0 fl oz	Divide Quadris® rate by 1.65	Best-mixing azoxystrobin available. Compatible with liquid fertilizer. No clogged nozzles or lines. Stays mixed regardless of delays or freezing.	Crown rot, Leaf spot, Pythium damping off, Stem rot
				Foliar	3.9 - 11.6 fl oz			
 Xyler® FC	Metalaxyl (31.3%) with Allosperse Delivery System	2.8 lb/gal	4	In-Furrow	11.4 fl oz	Divide Ridomil Gold® SL rate by 0.36	Fertilizer-compatible solution that controls key diseases like Pythium root rot. Gets crop off to a strong start for maximum yield potential.	Phytophthora seedling diseases
				Foliar	22.9 - 45.7 fl oz			

* Based on 36-inch row spacing

INSECTICIDES	Contains	AI/gal	Group	Application	Rate/Ac	Rate Comparison	Description	Key Pests
 Bifender® FC	Bifenthrin (19.3%) with Allosperse Delivery System	1.75 lb/gal	3	Foliar	2.4 - 7.4 fl oz	Divide Brigade® 2EC rate by 0.85	Excellent control of Three-cornered alfalfa hopper and secondary pests. A flexible tank mix partner that is compatible with foliar fertilizers.	Aphids, Armyworms, Cutworm, Earworm, Leafhoppers, Loopers, Mites, Stalkborer, Three-cornered alfalfa hopper, Thrips, Whitefly
 Viloprid™ FC^{1.7}	Imidacloprid (18.5%) with Allosperse Delivery System	1.7 lb/gal	4A	In-Furrow	18.8 - 28.6 fl oz	Divide Admire® Pro rate by 0.37	Long-lasting systemic control of key insects to help get crops off to a strong start.	Aphids, Leafhoppers, Thrips, Whitefly
