

Viloprid[™] FC^{1.7}

insecticide

Best Mixing and Only Fertilizer-Compatible Imidacloprid Product

THE VILOPRID[™] FC 1.7 DIFFERENCE

- Convenient insect control that is compatible with liquid fertilizers and other inputs
- Trusted, long-lasting systemic performance
- Saves time, labor and fuel because it can be mixed and applied in the same tank with other products

Jar test highlights the difference between Viloprid FC 1.7 (left) and Admire[®] Pro mixed with liquid fertilizer. Viloprid FC 1.7 mixes perfectly, making it easier to get the benefits of trusted insect control at the same time as the nutritional benefits of liquid fertilizer.

CATEGORY	Insecticide
CONTAINS	Imidacloprid + Allosperse
GROUP	4A

PRECISION CHEMISTRY FOR REAL RESULTS

Vive products contain the Allosperse[®] Delivery System, a unique proprietary technology that changes how proven active ingredients behave in the spray tank.

Using patented nano-polymer shuttles, Allosperse carries the active ingredient where it needs to go.

ALLOSPERSE[®]
DELIVERY SYSTEM

Allosperse targets and optimizes the interaction between active ingredients, fertilizers, micronutrients, biologicals, and other chemicals to ensure product compatibility and performance is at its very best.

VILOPRID FC 1.7 vs COMPETITORS

Potato Trial / Colorado Potato Beetle Control

In this trial, potato plants treated with Viloprid FC 1.7 showed significant reduction in Colorado Potato Beetle population counts in comparison to Admire Pro and CruiserMaxx treatments.

2018. Washington.
