

Host Public Liability Insurance

A new movement in travel.

Introducing Harvest Inn

Harvest Inn connects self-contained RVers with winteries, farms & attractions.

How does it work?

Harvest Inn is a digital platform where members can request to stay overnight with hosts in their RV or self-contained caravan.

Host benefits

Our hosts are a mix of family businesses like wineries, farms and attractions.

Our members search a location on the site, find a suitable host and request to stay overnight in their self-contained van or RV.

Our guests do not pay camp fees. Instead, they agree to purchase available goods and services from their host (e.g. a bottle of wine) via our terms of service.

Harvest Inn ensures all members have comprehensive insurance on all vehicles to protect hosts.

Host compliance

All Harvest Inn hosts must meet minimum standards to qualify as a host.

- Appropriate ingress & egress
- Level surface to support vehicle parking, free from overhanging limbs
- Emergency evacuation plan
- \$20 Million Public Liability Insurance that extends to overnight accommodation

Public Liability

In normal circumstances, each host will have extensive public liability in place and will just need a notation added to include overnight accommodations of 1 to 2 self-contained vans or RVs.

What insurance brokers will need to know about Harvest Inn

Our hosts are not caravan parks, they are simply providing clear space for 1 to 2 guests to park

All stays are overnight only

All member vans are fully self-contained, capturing grey and black water

Member vehicles are roadworthy and comprehensively insured

No outside cooking is permitted

There are no “hook ups” of power, water or sewerage provided

Hosts have complete control over who stays and who doesn't

All members agree to terms of service and code of conduct (provided)

There is no direct turnover for the overnight stay, rather the guest will purchase goods or services

This experience is bespoke so only 1 to 2 vans will be on site per night

Every host will provide emergency evacuation plans and policies to Harvest Inn, which will be sent to guests prior to arrival along with any special host conditions

As vehicles are self-contained, no amenities are offered outside of normal trading functions

Next steps

1

Brokers ensure public liability insurance cover is extended to include the overnight stays as outlined.

2

A copy of the Certificate of Currency which states the extended cover is sent to Harvest Inn (details below).

3

Harvest Inn will then upgrade the Host listing to the status of verified which makes them a preferred Host.
