

UNIVERSAL CEILING MOUNT BRACKET

Our Universal Ceiling Mount Bracket fits 1/4-20" infrared cameras. The design and coloring complements most facilities. It can accommodate most of our thermal cameras, both small and large, as well as our thermal reference source devices. The mounting bracket has been engineered for easy installation and has adjustable telescopic length from 26.4 inches to 47.2 inches. It is constructed of rugged aluminum and is hollow for easy cable management. Great for medical screening and building security.
