As a Certified Public Accountant, Eric started his career in Public Accounting working as a senior level accounting professional, focusing in the areas of tax and healthcare across multiple markets. During this time, he developed an expertise in all facets of accounting, including financial reconciliations and financial reporting.

Eric has worked with a variety of Medicare Administrative Contractors to optimize reimbursement for a range of Healthcare providers including hospitals, nursing facilities, home health agencies, Federally Qualified Health Centers, and Rural Health providers. Other engagements included Contractual Reviews for a large University Medical Center, Medicaid optimization for regional healthcare systems spanning two-states, Medicaid cost report preparations for various states, and Medicare cost report preparations and optimizations.

Currently Eric serves as a Reimbursement Consultant on our Provider Reimbursement team, working with hospitals of various designations, Skilled Nursing Facilities, Federally Qualified Health Centers and Rural Health providers to assist them in optimizing their reimbursement and payment opportunities. His focus includes work with contractual reviews, preparation of various cost reports, cost report strategies and governmental and third-party appeals and reopens.

Eric holds a Bachelor of Science in Accounting from Ferris State University. He is a current member of the Michigan Great Lakes Chapter of HFMA.
