jparker@TheRybarGroup.com

As Director of our Reimbursement team, Jesse has over ten years of healthcare regulatory reimbursement and payment experience. Through his work for one of the Medicare Administrative Contractors (MAC), Jesse offers experience with financial and governmental reimbursement audits for healthcare organizations and government entities. This knowledge provides our clients with a current understanding as to what the auditors are requesting and how providers can work to optimize their reimbursement while meeting the regulatory requirements.

During his work at the MAC, Jesse conducted extensive audits of the Medicare cost reports, ensuring Medicare reimbursement was fairly stated by reconciling reported amounts to external documentation and investigating any detected variances. His ability to maintain open communication and manage multiple projects at one time ensures clients' needs are met and led to the development of strong working relationships with provider clients.

Since joining The Rybar Group, Jesse has been instrumental in assisting our clients in identifying revenue opportunities through analysis of their cost reports and through the application of regulatory opportunities. Additionally, he is a key member of our COVID-19 team, remaining on top of the continually changing regulations and requirements and assisting our clients in obtaining the various relief funds available and in preparing for the related required reporting and single audits.

Jesse received his Bachelor of Science in Accounting from Central Michigan University. He is a member of the Florida Association of Certified Public Accountants and a member of the Michigan Great Lakes Chapter of Healthcare Financial Management Association.
