

Precision Frameworks™

Framed Mirror Solutions

Easy Frame®

Mounts Directly to the face of existing mirror.

Great for quick & easy remodelling projects that does not require mirror removal!

Easy Frame® is designed for mirrors that are already installed on the wall.

- Great solution to cover up black edge that may have occurred over time.
- Provides an upgraded, custom appearance to a plain mirror.
- Adheres to the face of an existing plain mirror using double-sided tape.

No Inventory Required!

Typical lead time:

Ships in 3-5 days

Easy Frame[®] Installation

After applying the speciality tape, test fit Easy Frame[®] to the mirror. Check for obstacles that will affect installation. As a safety measure, if the stability of the mirror is in question, place several offset metal mirror clips on the mirror into studs.

Clean the mirror with a 50-50 mixture of alcohol and water. Remove the backing from the tape. Be careful not to touch the tape to the mirror yet. Align Easy Frame[®] and gently press onto the mirror.

DO NOT APPLY FINAL PRESSURE to the frame yet. Inspect the alignment and if it is correct, apply direct pressure to Easy Frame[®].
