WIL-SEAL

Mildew-Resistant
Clear Silicone

Make your installation crew happy.
Order Wil-Seal today & give them the easiest silicone to apply!

WIL-SEAL

100% Silicone - Mildew Resistant

100% RTV (Room Temperature Vulcanizing) silicone is a one-component sealant which cures to a strong durable resilient rubber. It will adhere to glass, clean metal, most types of non-oily woods, vulcanized silicone rubber, silicone resins, natural and synthetic fibers, ceramic, paper, as well as many painted and plastic surfaces.

“We have been using Wil-Seal for over 10 years now. It's easy to apply and tool. My installers love it!”

F. Dawson, BCS
