

CRNMXS – CornerMax® Sleeve  
Cut Protection, Dyneema® Tube type

Features:

- CornerMax® Sleeves slide over the sling for positioning
- Can be sewn in place to protect areas of the sling
- Specially woven to provide cut protection
- Outperforms nylon, rubber, leather, and felt sleeves

How to order:

- Specify part number

Part Number	Internal Sleeve Width	Fits Twin-Path®
CRNMXS03	4.53	Up to TPXC 3000
CRNMXS04	5.71	Up to TPXC 5000
CRNMXS08	8.07	Up to TPXC 10000
CRNMXS10	10.24	Up to TPXC 20000

CRNMX – CornerMax® Pad  
Edge protection, 1 ply web filled with 3/4" nylon rods, with 2 Velcro closures

Features:

- CornerMax® Pad forms a tunnel between the load edge and the pad
- Position on corners or edges of the load
- Pad protects sling because of zero contact
- Filled with 3/4" nylon round bars
- Easily attached and removed with the Velcro closure
- Custom widths and sizes available upon request

How to order:

- Specify part number
