

The wait is over.

Introducing Atmos — the first innovation in air-charged urodynamics catheters in 20 years. Designed for maximum patient comfort, accurate results, and efficient usability, finally, there's an new option to benefit your patients and practice.

Learn why physicians are now choosing Atmos.

GEMINI

Designed for practitioners and their patients.

Urodynamic testing shouldn't be difficult. That's why Atmos catheters are designed to make diagnostic procedures easy, efficient, and reliable while delivering an uncompromised and more comfortable experience to your patients.

- **Advanced Polyurethane Material**

Maintains a rigid shape for easy application before softening inside the body for a flexible and comfortable fit.

- **Smallest Diameter on the Market**

Elevated patient comfort with a smaller FR than the industry standard.

- **Universal Integration & Compatibility**

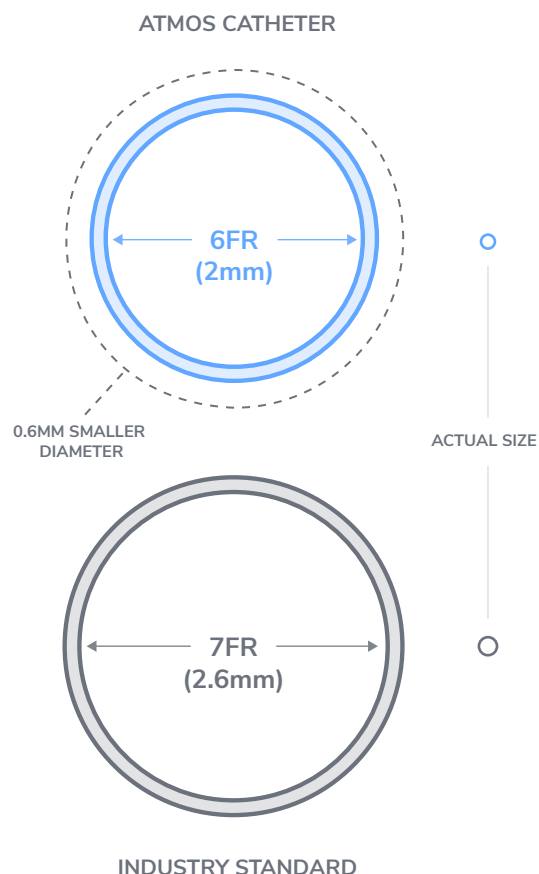

Compatible with your existing equipment so you can get started quickly with no upgrades or additional training.

- **Smooth Rounded Tip**

Designed for safe and comfortable insertion.

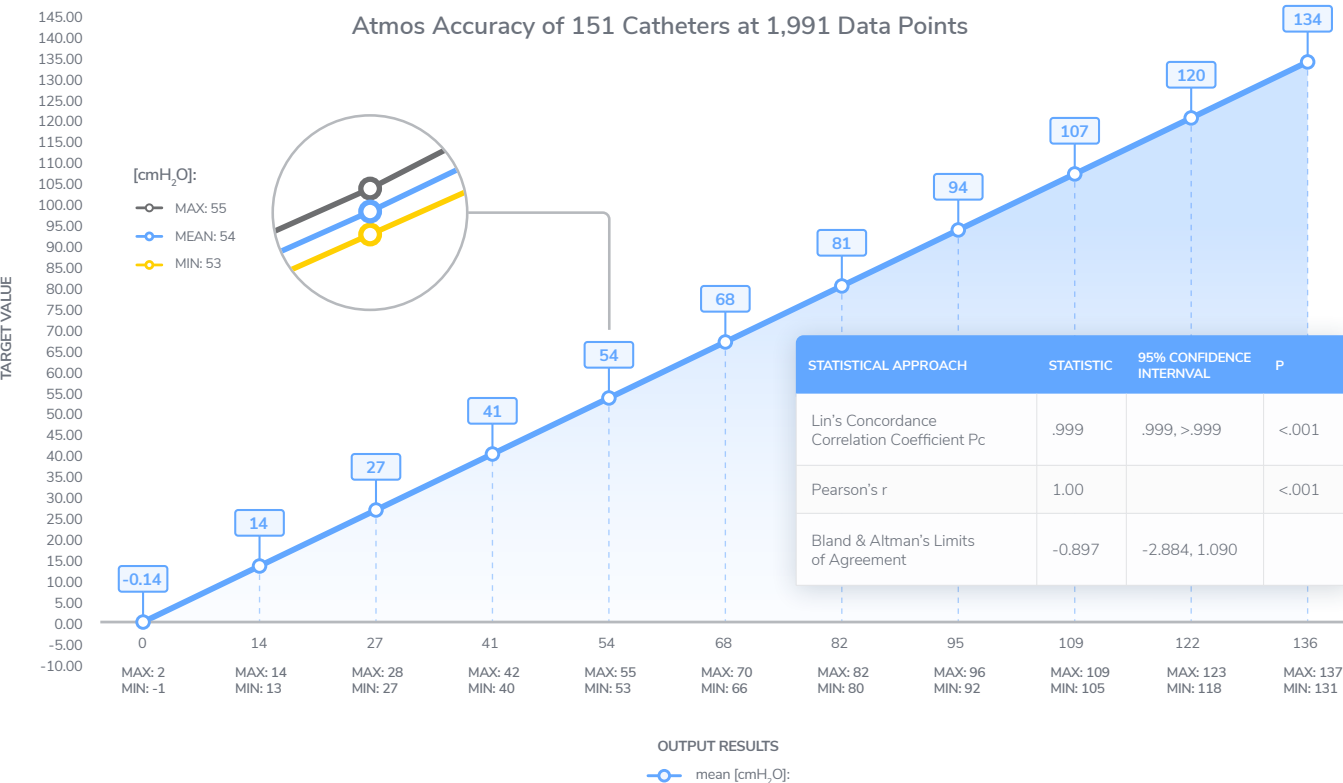

- **Color-Coded Luers**

Atmos catheters are equipped with color-coded luers that match with your existing cables for ease of use.

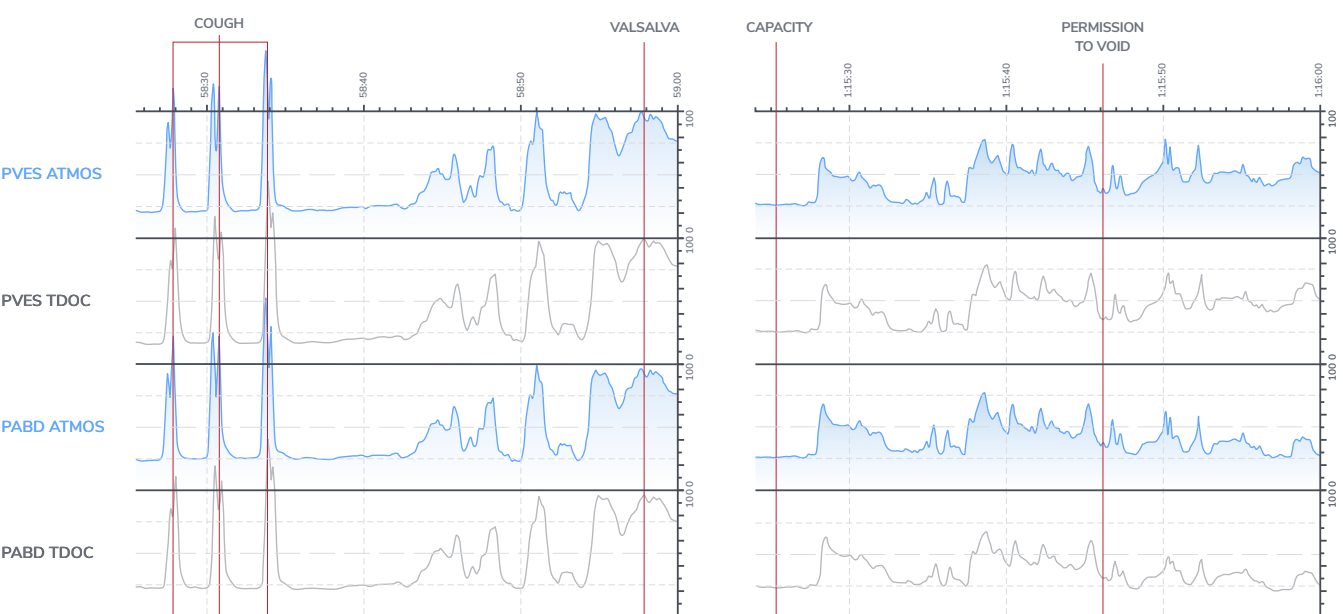

Choose accuracy

Atmos delivers results you can trust even in equipment calibrated to T-DOC. Atmos demonstrated near perfect statistical agreement in 151 catheters at 1,991 individual pressure points.

Choose performance

A single in vivo Urodynamic Study with simultaneous T-DOC and Atmos catheters shows minimal variation.

Everything you need in one place.

Sterile, disposable, and easy to use, Atmos gives you options for all of your diagnostic needs. In addition to our line of urodynamics catheters, we provide an assortment of tubing, electrodes, and other essential products from Gemini and select brands — curated to simplify procurement and designed to make urodynamic testing simple and efficient.

DESCRIPTION	BOX QTY
Single Sensor Abdominal Air-Charged Urodynamics Catheter	10
Single Sensor Bladder Air-Charged Urodynamics Catheter	10
Single Sensor Coude Bladder Air-Charged Urodynamics Catheter	10
Dual Sensor Bladder/Urethral Air-Charged Urodynamics Catheter	10
Pump Tubing & Extension Line (compatible with existing equipment)	25
Electrodes (wire & snap)	10/100

Your partner today and into the future.

For twenty years, you've been locked into a one-sided partnership, forced to settle for the only air-charged urodynamics catheter available. With the arrival of Atmos, finally, you have access to a premium product at a responsible price and are empowered to choose what's best for your practice.
