

Partnering With Fielo

Companies invest significantly in Salesforce to equip their sales teams and channel partners to better serve customers. Critical in this day and age of customer experience and customer success. But that's only part of the equation – to unlock greater performance and engender higher engagement, companies need a modern loyalty/incentive automation platform. Enter Fielo.

Fielo has extended the power of Salesforce with its scalable platform, enabling your clients to deploy engaging loyalty & incentive programs for their constituents. Moreover, Fielo gives you the ability to incentivize different behaviors, based on your goals and industry, to achieve desired results – all this on the Salesforce Lightning Platform.

Four complete solutions on one platform

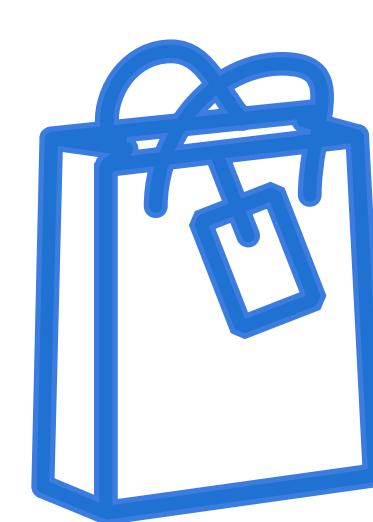

Channel Incentives Cloud

Enable clients to motivate channel partners, whether that be through a rebates program, spiffs, or MDF rewards.

Employee Incentives Cloud

Incentivize sales teams and contact center staff to leverage the company's investment in Salesforce more effectively.

Consumer Loyalty Cloud

Any behavior can be rewarded with points, branded merchandise or even custom rewards that your clients require.

Business Commerce Loyalty Cloud

With Fielo, your clients can encourage and reward not just customer orders, but the usage of their commerce site assets as well.

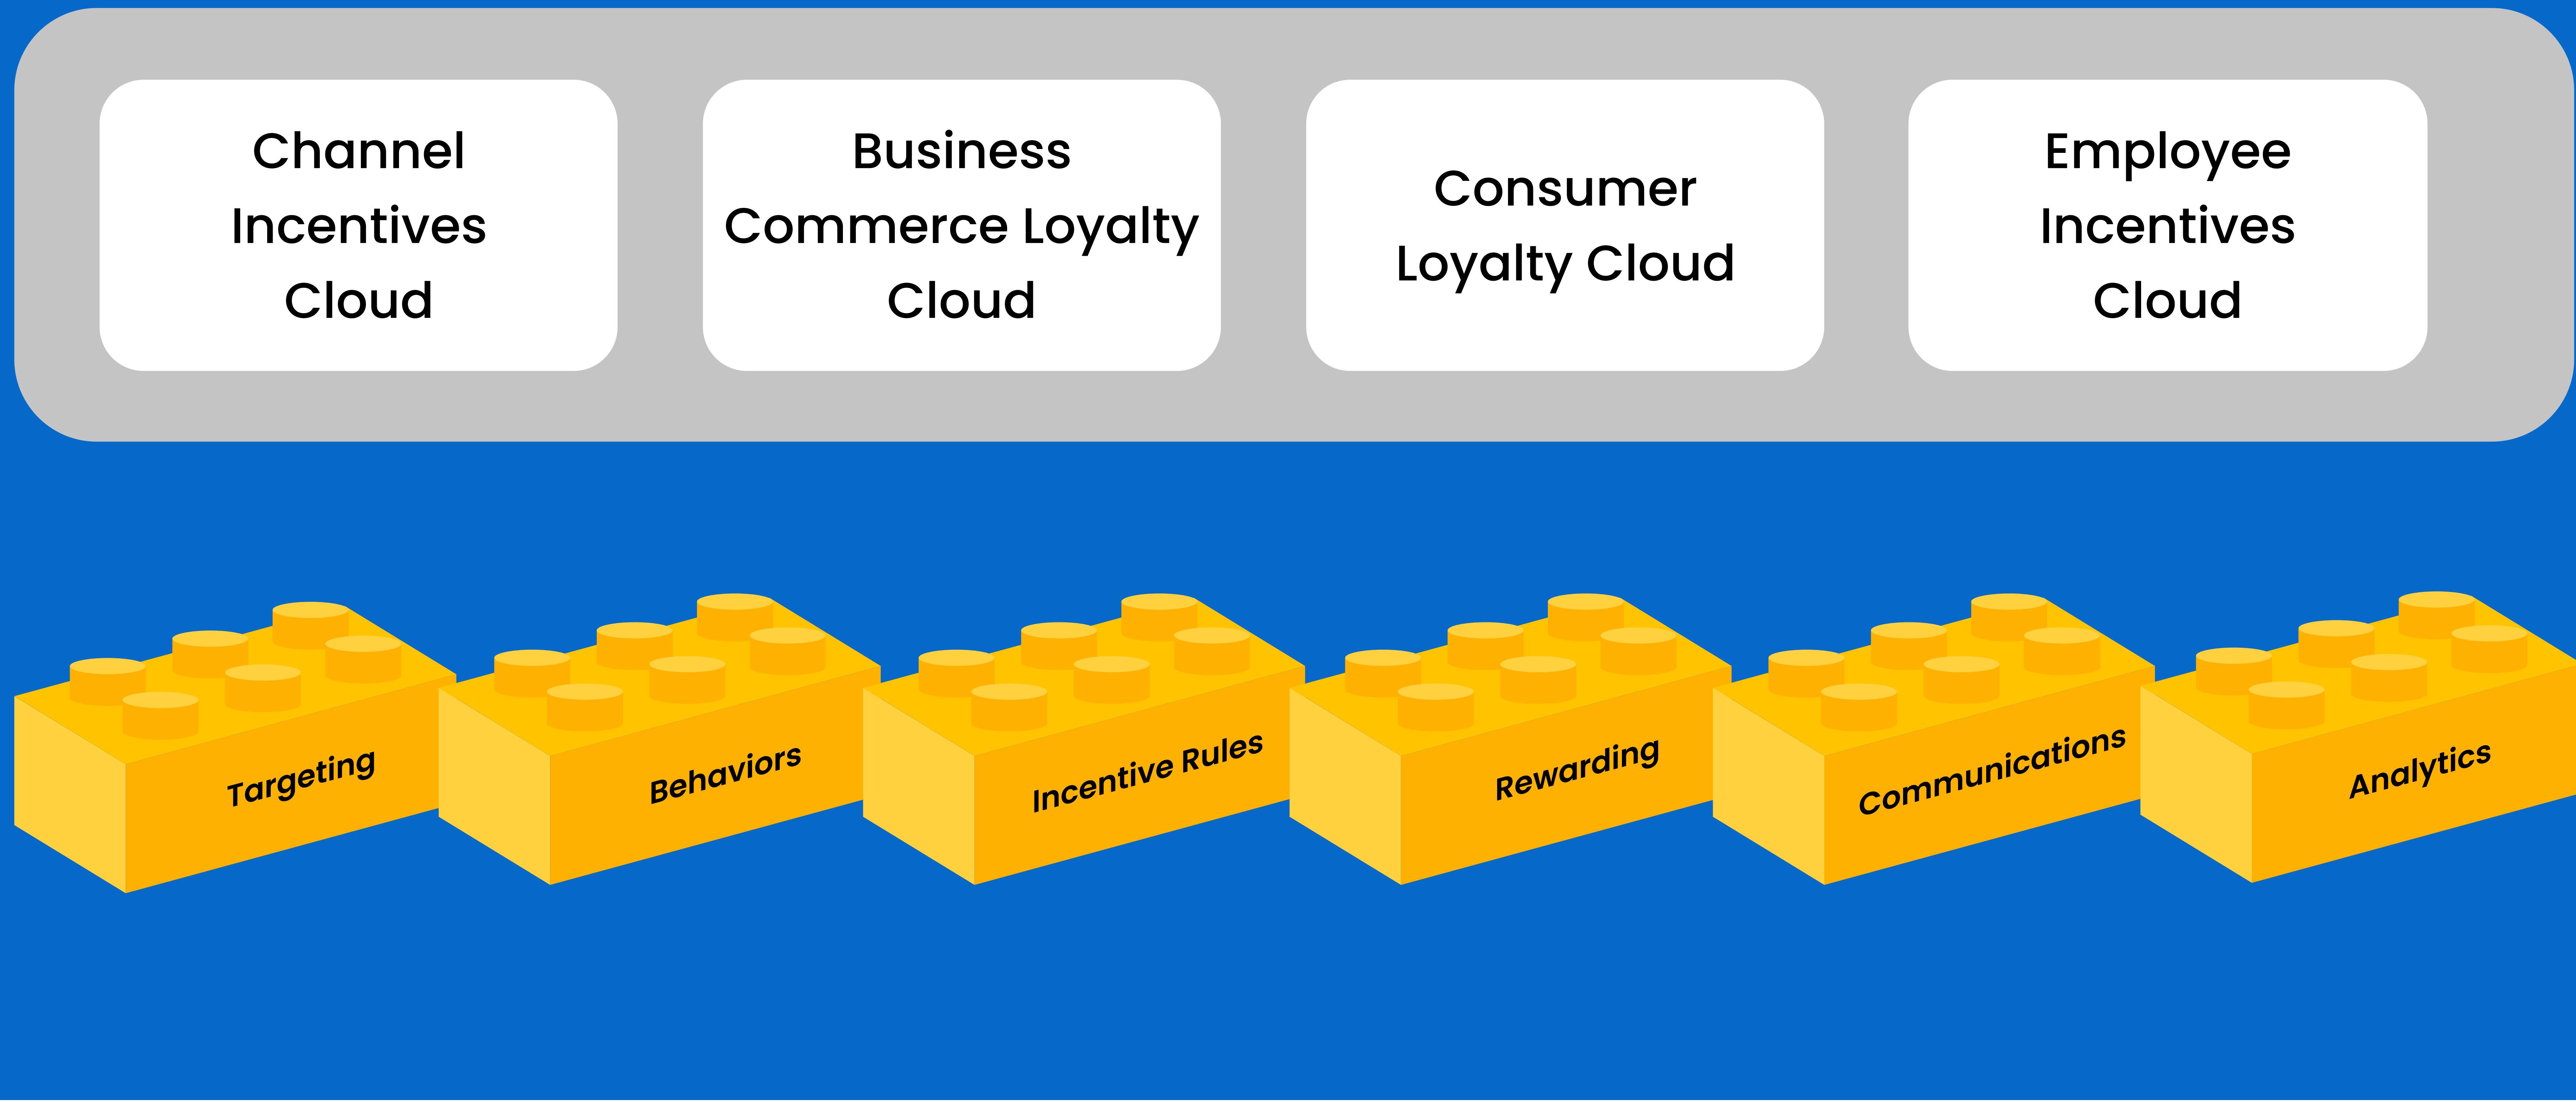

Building on your customers' investment

As a Salesforce-native application, Fielo gives the security, scalability, and reliability of the Salesforce environment.
