

How we help you with:

Software Developer Staff Augmentation

Your Personal Dev Team

Hiring highly specialized staff members is a difficult, time consuming and costly task, that may not be aligned to the changing needs of a project. Being able to ramp up or down team size according to meet changing demand without dealing with the liabilities of additional full-time employees can be a game-changer strategy.

Are you ready to get back to operations?

From part time developers to full stack teams

Full or Part Time

We have developers available on a full or part time basis. Need a software engineer who knows your stack and tools, but don't need a full time equivalent? We have you covered.

Consultative Approach

Our developers take a consultative approach to helping you solve technical challenges. Beyond simply coding, we are able to offer advice on the best way to solve your challenges.

Industry Experienced

Our software architecture team is comprised of industry experienced experts who have worked in some of the world's largest prop-tech startups and established firms such as Case and WeWork.

Concept to Build

Finding the right partner to help you build your software tools is essential to your success. Our team can help you even if you are just beginning your software journey in a conceptual sense.

Full Tool Development

Building valuable software solutions with high quality and cost-effectiveness can be a hard skill to master, and in our case is what we love to do the most.

Long Term Support

Whether its simple updates to the backend of your tool, or a full soup to nuts new version, our team can support you. Depending on your needs, we will recommend a strategy to update your tools.
