

How can you be a new company with 37 years' experience? We love to tell the story.

**2004**

FICO acquires London Bridge, creating a collections and recovery offering

**2012**

CR Software acquired by FICO, and Titanium becomes the Debt Manager Collections and Recovery Platform.

**1984**

Platinum collections platform introduced by CR Software.

**2007**

Release of the Titanium platform, using an open architecture for both first- and third-party collections and recovery.

**2021**

Debt Manager and associated products become C&R Software, acquired by Jonas Software.

And that's how we became the **market leader** in Collections and Recovery innovation.

## Innovations and simplification give our clients a distinct competitive advantage.

### 1 **Simplifying collections with experience**

Collections is a complex business. Our vision is to simplify the entire process, and our experience means our clients are well on their way!

### 2 **Leading cloud-native collections solution**

Debt Manager is the leading cloud-native, end-to-end solution for collections and recovery.

### 3 **Fast, scalable, zero CapEx**

Cloud native means no CapEx investment, fast deployment, seamless integrations, and unlimited scalability.

### 4 **On-time, on-budget delivery**

Experienced teams mean implementations delivered on time, on budget.

### 5 **Intuitive UI for agents and consumers**

A configurable user interface improves productivity and makes consumers and agents happy.

### 6 **Adapt fast with easy configuration**

Configuration instead of customization gives clients the ability to quickly adapt to change.

### 7 **Boost performance with smarter analytics**

We enable our clients to utilize their analytic capabilities by simplifying the deployment of models, modifying strategies and workflows to increase performance.

### 8 **AI chat for easier resolutions**

A configurable chat solution utilizes modern AI technologies, making it easier for consumers to resolve financial difficulties.

### 9 **Digital tools for modern consumers**

Ongoing innovative digital and self-service solutions address the increasing demands of today's tech-savvy consumers.

### 10 **Global-ready collections platform**

Multi-language, -currency, -industry and -product capabilities make C&R Software a proven global provider, and Debt Manager the leading system for expert collections and recovery.

# C&R Software is changing the world of collections and recovery.

Isn't it time to expect more from  
your collections technology?
