

Corporation Jet Worldwide

Connecting People, Parcels and Businesses around the world

Introduction

History

Corporation Jet Worldwide is a Canadian-based, cross-border service provider with four decades of experience. Jet offers shipping options and logistics support for International parcels, pallets, imports, exports, reverse logistics, and direct to country shipping for online orders.

Delivering Canadian International Shipping Solutions

Jet Worldwide has created unique cross-border solutions including labelling, airlift, final mile delivery, tracking and returns for e-commerce traffic. From Canadian gateways, shipping via Jet Worldwide includes labelling suitable for the entire journey of the product, up to final-mile delivery.

Through our 20+ year partnership with Geopost, Jet Worldwide is able to offer best in class international shipping options for online orders from Canada to Europe, the UK, Japan, China and all the world's leading economies.

Sell, Ship Direct

Cross Border E-Commerce

Canadian brands and retailers can access global markets via e-commerce using their existing fulfillment facilities.

Ability to Scale International e-commerce orders fulfilled locally

By selling direct, the necessary CAPEX is related mostly to web technology, SEO strategies, and compliance with local regulations including sales tax.

Trusted Brands

A Common Trait Among All International Buyers: Trusted Transporter = Trusted Seller

- Delivery by trusted national carriers including DPD Europe, China Post, Japan Post, Ninja Van etc ...
- Shoppers appreciate flexible shipping options, convenience of pick up locations and local support.
- International buyers appreciate locally sourced delivery options that respect their community.

Shipping International from Canada

Jet offers direct connections to leading global economies and smaller niche markets.

Sales Synergies

Jet Worldwide helps Canadian sellers target specific countries and regions to build on natural synergies that likely already exist and to grow sales by shipping direct from Canada.

Sales synergies can include:

- Language and cultural connections
- Product synergies that serve the needs of a specific country, market or region

The United Kingdom

The United Kingdom is among the world's largest economies and a leading export market for Canadian goods. Goods of Canadian origin may benefit from duty free import via the UK Canada Free Trade Agreement (UKTCA).

British consumers have an affinity for Canadian goods and merchandise.

- Shipped Direct to the UK from Canada
- Labelling and Shopify plugins
- Tracking
- Prepayment of Value Added Tax
- Powered by DPD

European Union

The European Union is instituting new rules to facilitate clearance from a single point of entry for free movement and delivery within the euro zone. Jet Worldwide assists sellers to establish best in class import processes in compliance with pre payment of value added tax / VAT.

- Ship to European Gateways directly from Canada
- Labelling with Shopify plugin
- Tracking
- Prepayment of Value Added Tax
- Powered by DPD

China

China is... well China!

Jet Worldwide offers unique access to final mile delivery via China Post through Asian gateways giving Canadian sellers access to this mega marketplace.

- Efficient import clearance processes
- China Post labelling from Canada
- Tracking
- Final mile delivery via China Post

Japan

Japan is the world's third-largest economy and an attractive market for Canadian merchants. Jet Worldwide offers commercial and postal import options with final mile delivery via Japan Post.

- Commercial and postal clearance
- Japan Post Labelling in Canada
- Tracking
- Final mile delivery via Japan Post

Go Local, Globally

Jet Worldwide enables Canadian sellers to target global markets that can be reached directly from their Canadian distribution centres.

- Prepayment requirement of value added tax to the UK and E.U.
- Taking advantage of preferential duty free imports when ever possible
- Labelling and integration with online platforms such as Shopify
- Tracking and customer service support
- Reverse logistics and return management
