

Corporation Jet Worldwide

Connecting People, Parcels and Businesses around the world

Introduction

History

Corporation Jet Worldwide is a Canadian-based, cross-border service provider with four decades of experience. Jet offers shipping options and logistics support for International parcels, pallets, imports, exports, reverse logistics, and direct to country shipping for online orders. By leveraging our strong partnerships developed over decades, we can offer best-in-class services that are key to winning e-commerce online orders from Canada.

Delivering Canadian International Shipping Solutions

Jet Worldwide has created unique cross-border solutions including labelling, airlift, final mile delivery, tracking and returns for e-commerce traffic. From Canadian gateways, shipping via Jet Worldwide includes labelling suitable for the entire journey of the product, up to final-mile delivery, via our online portal. Jet Worldwide's website and blog is Canada's premier resource for international shipping information to and from Canada.

France

France is a large, diversified economy with strong ties to Canada. Goods made in Canada may benefit from duty free entry under the Canadian European free trade Agreement (CETA).

The French market is particularly attractive to Quebec merchants.

- Ship direct to France from Quebec and Canada
- Labelling
- Tracking
- Prepayment of Value Added Tax
- Delivery via DPD or Chronopost

European Union

The European Union is instituting new rules to facilitate clearance from a single point of entry for free movement and delivery within the euro zone. Jet Worldwide assists sellers to establish best in class import processes in compliance with pre payment of value added tax / VAT.

- Ship to European Gateways directly from Canada
- Labelling with Shopify plugin
- Tracking
- Prepayment of Value Added Tax
- Powered by DPD

Shipping International from Canada

Jet offers direct connections to leading global economies and smaller niche markets.

Go Local, Globally

Jet Worldwide enables Canadian sellers to target global markets that can be reached directly from their Canadian distribution centres.

- Prepayment requirement of value added tax to the UK and E.U.
- Taking advantage of preferential duty free imports when ever possible
- Labelling and integration with online platforms such as Shopify
- Tracking and customer service support
- Reverse logistics and return management
