

Professional Voice Recordings

Promote Your Business Brand Every Time Someone Calls

On Hold Messages for Business from \$49

Professionally recorded phone messages and greetings are the perfect way to promote and re-enforce your business brand when customers call the business. They will put a professional touch to any message and enhance your business image. Choose between a male or female voice, recorded in the tone best suited to your business.

Project a Professional Image

Make your business stand with a professional voice recording. Our voice artists have over 18 years worth of experience and produce messages of the highest quality.

Tailored to Suit Your Needs

Each recording is customised to suit your business requirements. You can choose from a range of tones, voice artists, and create a custom script for your on hold message.

No Recurring Monthly Fees

Our professionally recorded messages are yours to keep and use as required. There are no recurring monthly fees.

Use for PBX Phone Systems and Inbound 13-1300-1800 Numbers

Ideal for Business Intro Messages at the start of the call, Auto Attendant (IVR) prompts, Voicemail greetings such as one for an After-Hours Service, and On-Hold Messages. Incorporate background music for that extra touch.

Choice of Male or Female Voice Talent

Choose from male or female voice talent, and from multiple voice tones including natural, energetic and professional. Select one that best suits your brand and industry. Our Voice Artists are some of the most experienced in Australia and have produced countless voice overs including TV and Radio Ads.

100% Customised Scripting

A standard recording includes up to 75 words and is up to 30 seconds in length. It includes a WAV File that can be uploaded onto most PBX systems and for use with inbound numbers.

Most Popular Use of On Hold Phone Messages

You don't have to be a large national business to make an impression with your callers. On hold messages are ideal for SME businesses to sound just as professional.

Business Intro Messages

Record and play the message while the caller is waiting to be connected. An excellent way to professionally introduce your business to the callers and set it apart from the competitors.

Auto Attendant (IVR)

Get a professional recording of your Auto Attendant (IVR) prompts and ensure your business keeps up the image it deserves.

Voicemail Messages

Ideal for business PBX voicemail messages and after-hours Voice 2 Email service. Record custom messages to cover public holidays and temporary office closures.

On-Hold Messages

Promote your business to the callers while they're on hold. Inform them of your range of products and services, their benefits and how they can help them. Or just re-enforce your branding with some pleasant background music.

1300/1800 Numbers

Get professionally recorded messages uploaded to use with features such as Auto Attendant, Business Intro Message and Voice2Email.

PBX Phone Systems

Upload the professionally recorded WAV file to use with the matching PBX feature. Replace Music On Hold with your own professionally recorded Messages On Hold.
