

New Barbours Cut Entry Gate Process

February 8, 2022

Trucking Company Information

Entry Gate

1. Driver enters entry gate and stops at OCR kiosk
2. Driver receives a ticket from the kiosk. **Driver may be turned around if they do not wait for a ticket**
3. Driver proceeds through OCR cameras and over scale – **these are new Weigh In Motion scales and will record the driver's total scale weight to the ticket.** **Driver should stay under 15 MPH in this area**
4. Driver will pull into any of the open processing lanes.
5. The driver will receive a Drop-Off or Pick-Up ticket. **Previous process provided driver with a Gate Pass**.
6. If, the driver receives Trouble for a weight issue, the driver can proceed to scale trouble lanes (noted in image below)
7. If the driver receives a Trouble ticket for any other reason, the driver can proceed to the Trouble booth (noted in image below) Driver should:
 - a. Park in designated parking spaces
 - b. Contact Trucker Hotline 713-670-1500 (Press 1 for Barbours Cut)
 - c. New Tickets will be printed at Trouble Booth printer

TWIC Checkpoint (Previous Stage 2 scale canopy)

1. Driver will proceed to the TWIC check area. Security guards will be staged under the canopy to check the TWIC cards of each driver. **Drivers will not receive another ticket at this point**
2. Lane 35 remains open for out of gauge and other approved moves.
3. Driver will proceed into the yard and exit through the normal exit gate process.
