

CR Solutions' Technology Fueled Office Reopening

After a months-long shutdown and remote work due to COVID-19 concerns, on June 1 CR Solutions welcomed employees back to our reopened New York and Georgia offices.

Staggered schedules

Initially we will be limiting office capacity to 25-35% staff in office, we will be staggering days in the office.

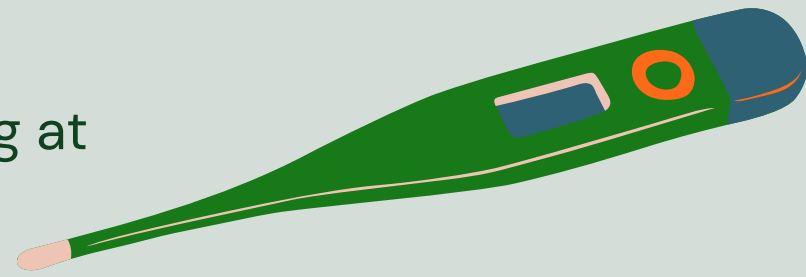

Increased hygiene

Practice good hand hygiene by washing your hands with soap and water or using alcohol or hand sanitizer.

Temperature checks

Temperature monitoring at home prior to going in the office.

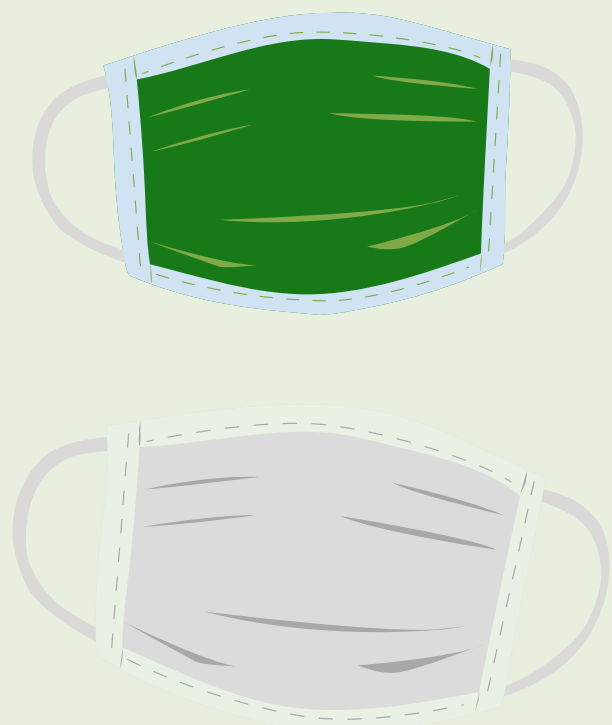

Kitchen limits

Kitchen access limited to minimize exposure to high touch areas.

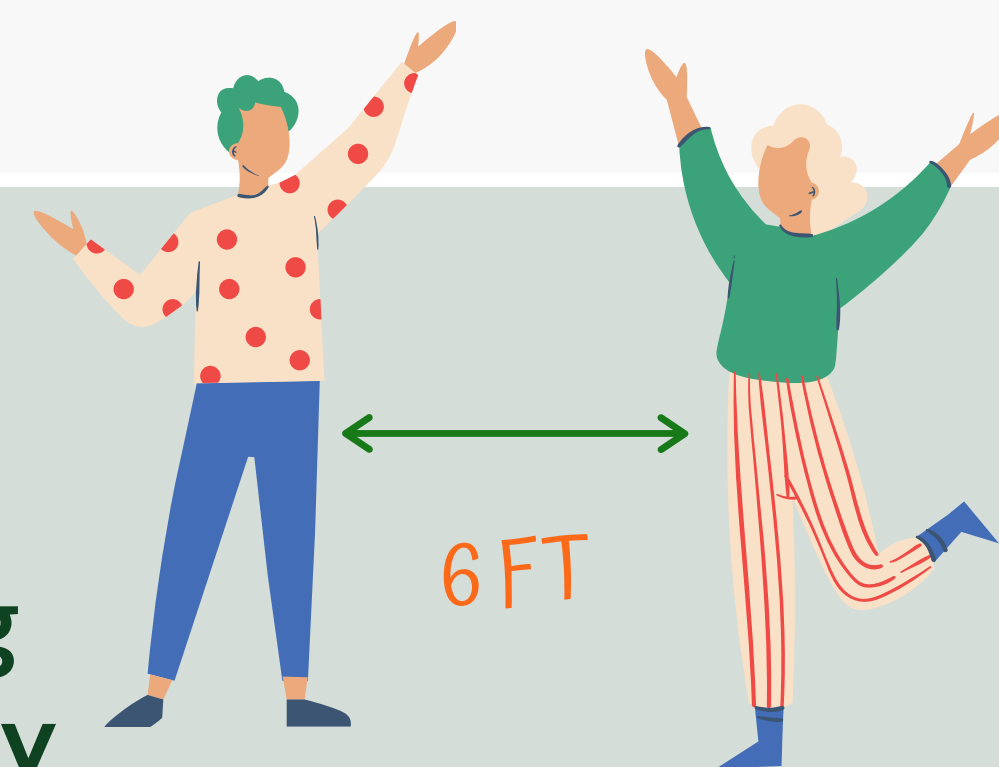

Masks required

Masks required when unable to meet 6 feet social distancing.

Triax's social distancing technology

Social distancing technology uses the latest advancements, including the Internet of Things (IoT) and cloud technology, to identify areas where workers are not maintaining a safe working distance from each other.

Be outdoors

Use of outdoor gathering space to allow collaboration without viral transmission.
