

RACER ELITE

PERFORMANCE CONNECTING ROD KITS

FACTORY TRUSTED

Developed and tested with Dean Baker,
Head of Engine Development - JGRMX

Wiseco has grown their premium performance offerings by adding an all-new connecting rod to the Racer Elite line of products. Designed with F1 engineering experience and manufactured in the USA, these one-piece rods are the product of three years of in-shop and on-track racing development with elite teams in AMA Supercross and Pro Motocross.

- One-piece design fully machined from proprietary, USA-made forgings
- Designed and manufactured in the USA using F1 engineering design experience achieving optimal strength-to-weight characteristics
- CNC machining tolerances held up to millionths of an inch on critical dimensions
- Heat-treated for industry-leading strength and service life
- Improved surface finishes reduce friction and improve durability
- Dedicated quality process involves Zeiss CMM inspection and individualized critical dimension reporting and serialization

ROD KITS INCLUDE HIGH-QUALITY, JAPANESE BIG END BEARING, CRANK PIN, AND THRUST WASHERS (WHEN APPLICABLE).

NO NEED TO SOURCE SEPARATE PARTS!
