

END OF LIFE NOTICE

MODEL SD220, SD230, SD232, SD233, SD122, SD123, SD132, SD133

Dear Customer,

As part of our ongoing product development and product life cycle process, Prime Controls has improved its Double Shell and Missing Tab family of products with the introduction of a smaller, DIN-rail mount unit (model SD230M) and a configurable, identically packaged unit (model SD230F). The configurable SD230F replaces multiple variations of units, simplifying customer inventory requirements. The SD230M is smaller and mounts vertically on a DIN-rail, reducing the space claim in the panel.

At this time, we are announcing the end of life plan for the products listed below:

DISCONTINUED PRODUCTS	RECOMMENDED REPLACEMENT
SD220 and SD230 – Dual Channel Double Shell/Missing Tab Detector	SD230F (Form, Fit, and Function Replacement) OR SD230M (Functional Replacement only, Not Form and Fit)
SD222 and SD232 – Dual Channel Double Shell/Double Shell Detector	SD230F (Form, Fit, and Function Replacement) OR SD230M (Functional Replacement only, Not Form and Fit)
SD223 and SD233 – Dual Channel Missing Tab/Missing Tab Detector	SD230F (Form, Fit, and Function Replacement) OR SD230M (Functional Replacement only, Not Form and Fit)
SD122, SD132 – Single Channel Double Shell Detector	Call Factory
SD123, SD133 – Single Channel Missing Tab Detector	Call Factory

Additional Detail:

- The SD230F directly replaces models SD220, SD230, SD222, SD223, SD232, and SD233.
- The SD230M is a smaller dual channel, DIN-rail mount unit; therefore, it will not directly drop in and replace previous generation SD2XX units on a panel. It requires a DIN-rail for mounting. The unit is functionally similar in that it detects double shells, missing tabs, or some combination thereof.

If you would like to make final purchases of the discontinued products, please place an order before the **END OF SALE** date below. Prime Controls reserves the right to limit and allocate quantities in the event demand exceeds available supply.

MODEL #	END OF LIFE ANNOUNCEMENT	END OF SALE DATE	END OF SERVICE DATE	EXTENDED SERVICE PERIOD
SD220, SD222, SD223	1/1/21	1/1/21	1/1/26	N/A
SD230, SD232, SD233	9/1/21	2/1/23	2/1/28	N/A
SD122	1/1/21	1/1/26	1/1/2031	N/A
SD123	1/1/21	1/1/21	1/1/21	N/A
SD132, SD133	1/1/21	1/1/21	1/1/21	N/A

Prime Controls will provide technical support and repair services until the End of Service date. If service is not possible, Prime Controls will offer an alternative product of similar or greater functionality. Please visit our website for a full overview of our End of Life policy.
