

PROGRAM DESCRIPTION

PN2RN Transition Program

Registered Nursing Program

The PN2RN track is a three semester course of study that allows a Licensed Practical Nurse to complete the requirements for an associate's degree and become eligible to take the NCLEX-RN.

The nursing program is rich in hands-on experience. Clinical experience for the nursing program is obtained in hospitals, long-term care facilities, and schools within a 75-mile to 100-mile radius of the college. Applicants should meet with a nursing advisor to determine an individualized academic plan.

After successful completion of the PN2RN Transition semester, the student is admitted, as space permits, into the final two clinical semesters of the associate degree program.

The LPN must apply for admission to Hocking College, provide verification of an active, unrestricted license as an LPN and successfully complete the HESI (A2) admission test. Students are also required to submit evidence of a clean background check and drug screen, physical examination and CPR for the Professional Rescuer certification before beginning clinical coursework. Students are responsible for their own transportation to clinical sites.

ACCREDITATION

The Registered Nursing Program is accredited by the Accreditation Commission for Education in Nursing (ACEN) and is approved by the Ohio Board of Nursing (OBN).

PLACES OF EMPLOYMENT

Examples of places where Hocking College alumni have worked or are currently working include the following:

**Holzer Health System • Fairfield Medical Center • OhioHealth O'Bleness Hospital
Marietta Memorial Hospital • Adena Health System**
