SMART SUPPLY CHAIN SOLUTIONS

SMART SUPPLY CHAIN SOLUTIONS

Barloworld Logistics is part of the Barloworld Group recognised worldwide for offering flexible, value-adding, integrated business solutions to customers backed by leading global brands such as Caterpillar, Hyster, Avis, Audi, BMW, Ford, General Motors, Mercedes-Benz, Toyota, and others. Founded in 1902, Barloworld now operates in 22 countries around the world. With a proven track record of long-term relationships with global principals and customers, Barloworld is equipped to develop and grow businesses in multiple geographies, including challenging territories with high growth prospects.

IT'S THE WAY WE CONNECT

At Barloworld Logistics our goal is to deliver smart supply chain solutions that are reliable, improve your bottom line and contribute to the success of your business. We understand that excellent supply chain solutions form the very backbone of economies and companies in South Africa and worldwide. Given the ever changing business

landscape with dynamic demands, we have the **foresight** to develop smart supply chain solutions that enable you to always remain ahead and achieve a strong competitive **advantage**. From managing small, just in time deliveries to complex multi-modal models and large international shipments, our experienced dedicated people and the way we

connect makes all the difference. The way we connect with your business and with your people enables us to establish **smart** partnerships with all stakeholders to ensure your individually tailored and innovative solutions are **sustainable**. This is what makes Barloworld Logistics a **leading** local and global supply chain services provider.

PASSION FUELS WHAT WE DO

Designing customised supply chain solutions is just the beginning. Our team works with your team to implement a personalised and effective solution with no compromise on quality or reliability. Our teams form an extension of your business, from gaining a full understanding of your challenges to concept, design

and the on-going management of your supply chain where honest commitment, optimisation and collaboration form the foundation of every partnership.

Our personalised and innovative solutions are developed from a wealth of experience and invaluable expertise, carefully

considering each and every stage of your valuable assets, developing sustainable connections between people and technology to form our entire supply chain network.

INNOVATION SITS AT THE HEART OF OUR SOLUTIONS

SERVICES

SUPPLY CHAIN MANAGEMENT

From mining and manufacturing to clothes, cars and food, Barloworld Logistics is all about delivering the right product, to the right place, at the right time, at the right price.

Simply put, we're in the business of supply chains and supply chains are integral to every single business in the world.

Through our holistic approach and original thinking, we design and manage performance based supply chains that are dynamic, adaptable, responsive and visible. We're inspired and committed to co-creating smart opportunities that benefit the environment and communities in which we operate.

The smarter the supply chain, the smarter the business, the greater the growth.

WAREHOUSING SOLUTIONS

We design, manage and operate warehousing and distribution solutions tailored to deliver bottom line benefits. Big or small, creating tailored seamless solutions that benefit your business with optimal efficiencies are our ultimate goal. Designed for today with tomorrow in mind, our warehousing solutions include an extensive range of services fit for smart businesses.

TRANSPORT SOLUTIONS

Barloworld Transport offers a range of flexible, sustainable transport solutions for companies across sub-Saharan Africa. Placing strong emphasis on safety, risk management, sector specialisation and operational excellence, we are committed to exceeding your transport expectations, every time.

With an exemplary track record in operating large complex fleets, Barloworld Transport has the size, strength and expertise to deliver flexible, optimised and sustainable transport solutions. Our variety of services include dedicated, line haul, cross-border, fuel, chemical and gas, timber, project cargo, abnormal loads and cold chain as well as other specialised services.

The Barloworld Transport network comprises 38 depots across southern Africa, a fleet of over 100 vehicles powered by more than 3 100 passionate employees with one mission - to deliver smart transport solutions that add real value to your supply chain.

TRANSPORT MANAGEMENT SERVICES

Our managed transport solution not only reduces costs and risk but increases supply chain integration, service levels, visibility and flexibility. By combining route optimisation, supplier procurement, transport expertise and business intelligence with dedicated management processes, we transform your network into a competitive advantage.

RAIL SUPPLY CHAIN SOLUTIONS

Barloworld Logistics' passion for rail stems from our conviction that each transport mode plays a specific role in the supply chain.

Through the deployment of leading-edge technologies and operational expertise at key nodal points, Barloworld Logistics manages all aspects of the rail value chain, providing visibility, and successfully delivering the benefits of rail transportation in a world where customers demand door-to-door logistics solutions.

FREIGHT FORWARDING SOLUTIONS

We believe the supply chain is a key enabler of a successful business strategy, while a smart freight forwarding solution is a key driver of a successful supply chain.

With operations and agents around the world, we have an established freight network along global trading routes. Coupled with our comprehensive understanding of local and international markets, customs requirements and excise laws, we move our clients' goods around the world on time, on target and on budget.

ENVIRONMENTAL SOLUTIONS

With a passion for sustainable environmental solutions and aiding the process of zero waste to landfill, SmartMatta thinks differently and pushes the boundaries with skill and expertise by integrating, optimising, measuring and reporting on environmental aspects within your business, furthering the development of a circular economy.

PEOPLE ARE THE LINKS IN OUR CHAIN OF SUPPLY

TEMPERATURE CONTROLLED SOLUTIONS

Specialising in time and temperature sensitive goods that require absolute product integrity, Barloworld Logistics offers a rapid delivery route-to-market for clients.

Our temperature controlled service offering includes:

- Established presence in forecourts and general trade
- National network
- Local knowledge
- Industry expertise
- Flexible and agile services
- Short lead time
- High frequency
- Quick turnaround

SUPPLY CHAIN PLANNING SOLUTIONS

Supply Chain Planning Solutions (SCPS) combines the right software, expertise and methodologies to optimise and enhance our clients' network, transport and inventory performance.

As the LLamasoft sales, implementation and support partner for Africa and the Middle East, we have access to the full suite of LLamasoft software products, including Supply Chain Guru (SCG), CAST, Optimiza, Data Guru and Supply Chain Visibility.

STRATEGY AND ADVISORY

Equipping you with the big picture, using a variety of tools, scenario planning, smart methodologies and sophisticated modelling, we identify profitable opportunities enabling you to achieve operational efficiency.

Using a variety of tools and methodologies, including sophisticated modelling and scenario planning, we apply our analytical skills to uncover potential complications and profitable prospects.
