

Skin App
by DERMENGINE™

Connected dermatology care

THE FACTS

Do you have questions about your skin that only a dermatologist can answer? If you've ever tried booking an appointment, you'll know that it can take more than six months to finally see a professional, leaving you left waiting when it matters most.

Did you know?...

90% of patients report that their condition worsened while waiting for their appointment!

HOW SKIN APP CAN HELP

Skin App lets you document your condition, take pictures, and even send them to a medical professional in your area, where you'll receive a private report with your consultation in a matter of days.

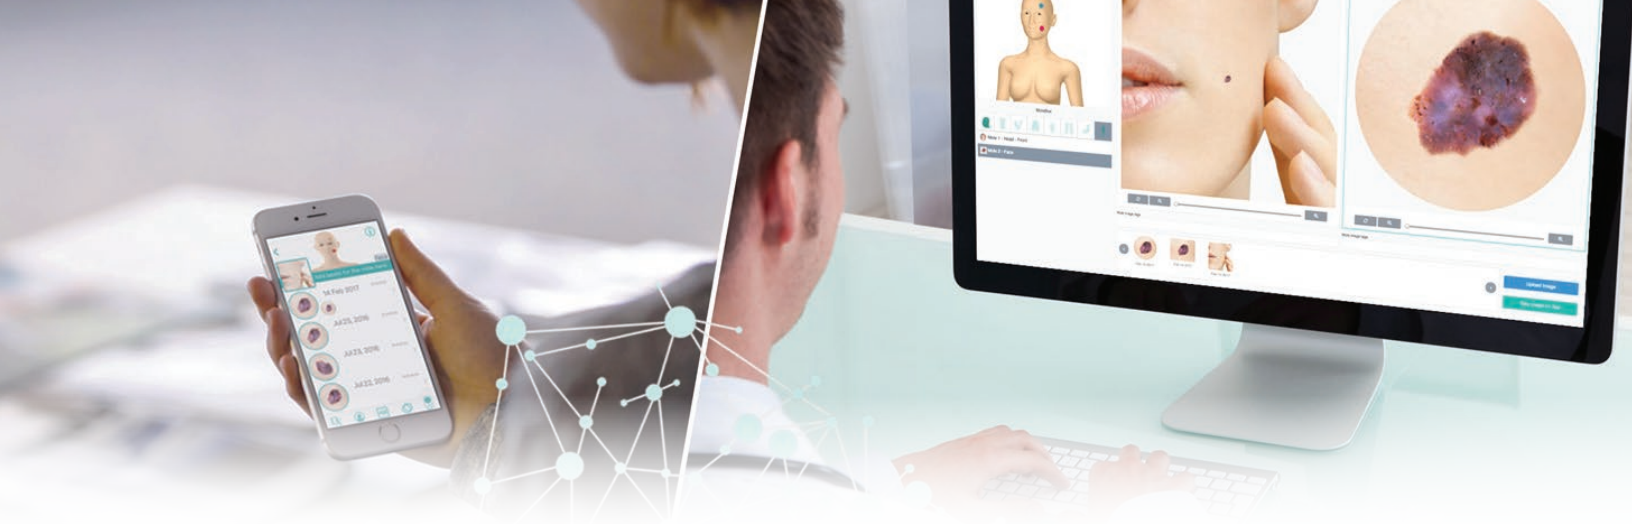

INTUITIVELY DOCUMENT YOUR CONDITIONS

Track and locate your spots and conditions by placing them on your personal 3D Body Map.

CAPTURE IMAGES WITH YOUR SMARTPHONE

Using just your smartphone you can take high quality pictures of your condition to help you and your doctor track any changes or improvements over time.

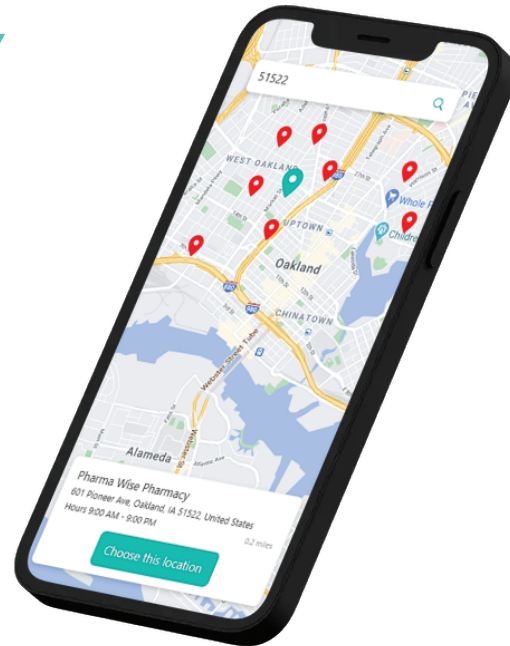

RECEIVE PROFESSIONAL FEEDBACK

Submit your images and other relevant medical information to a medical professional in your area and receive a fast, private report with your consultation- usually in a matter of days.

SELECT YOUR PREFERRED PHARMACY

Need a prescription filled? Easy! Just include your preferred pharmacy location for a convenient pick up process.

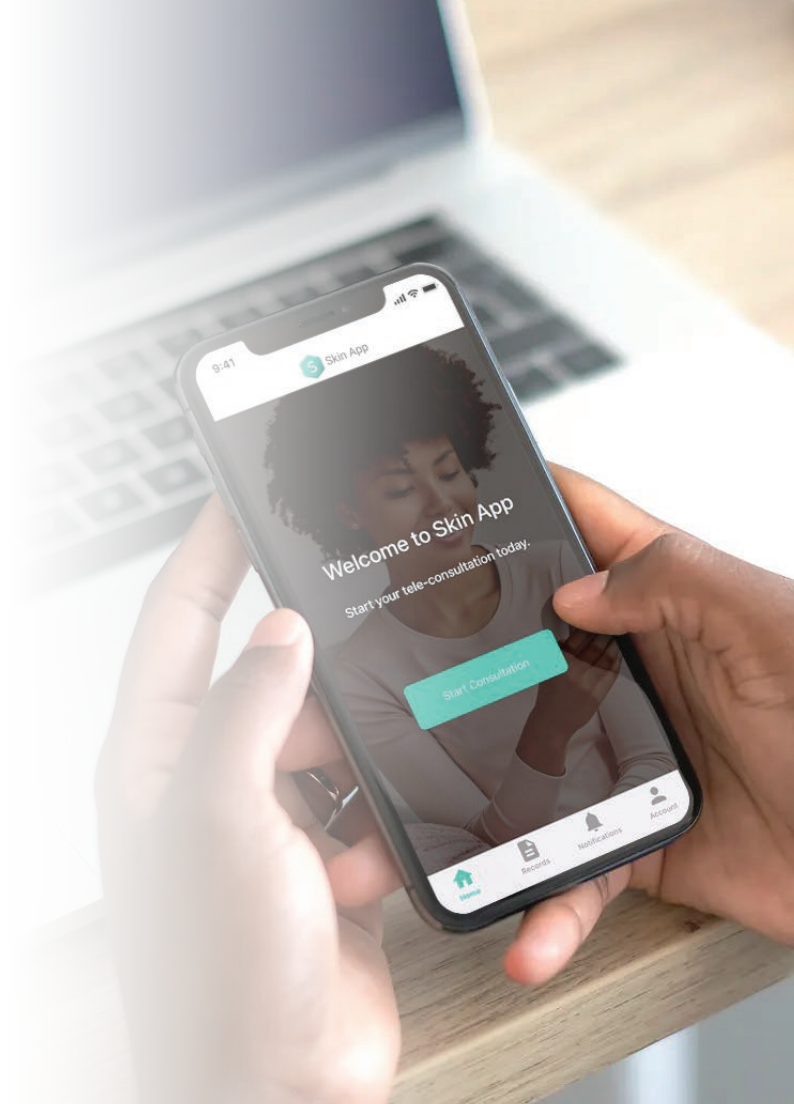

CONNECTED DERMATOLOGY CARE

Skin App takes the guesswork out of dermatology visits, and lets you receive the care you need from the comfort of your home, when in-clinic appointments might not be an option.

What are you waiting for?

Download Skin App today and take the first step in getting faster, quality care for you and your skin.
