

## Certified in Planning & Inventory Management

APICS ([www.APICS.org](http://www.APICS.org)), now part of ASCM (Association for Supply Chain Management), is the leading professional association for supply chain and operations management,.

The APICS Certified in Planning and Inventory Management (CPIM) program is recognized globally as the standard of professional competence in operations, materials, production and inventory management.

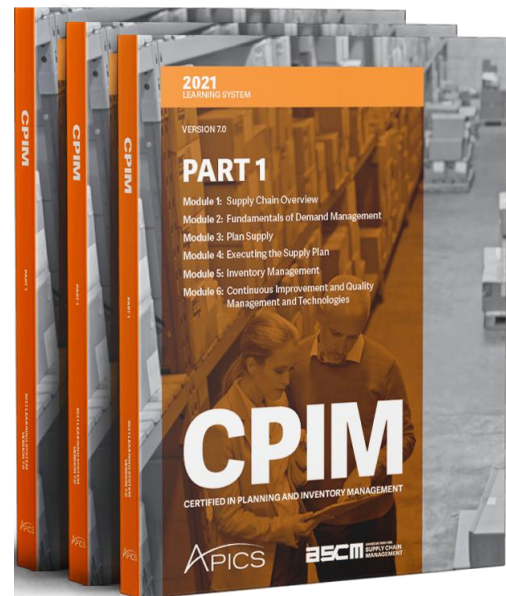

For over 45 years, the APICS CPIM program has helped thousands of companies improve their operations and competitiveness.

*According to Greg Ankney, Director of Materials Management for SSP Fittings, in Twinsburg, Ohio: "SSP has used APICS CPIM training to learn the principles of planning systems. By applying these principles to our operations, service level increased from 65% to 92%, average delivery lead-time decreased from over 2 weeks to less than 2 days, on-time delivery increased from 95% to 99.8%, and inventories were reduced by 25%. These results were critical to SSP Fittings winning the Industry Week Best Plants Award."*

CPIM (Certified in Planning & Inventory Management) content is covered in 2 courses. The first CPIM course, **Basics of Supply Chain Management (CPIM Part 1)**, provides an excellent foundation by itself.

### CPIM Part 1 (Basics of SCM) course contents:

- Introduction to Supply Chain Management
- Materials Management
- Manufacturing Planning and Control
- Forecasting
- Demand Management
- Master Planning
- Sales & Operations Planning (S&OP)
- Resource Planning
- Master Scheduling
- Rough-Cut Capacity Planning
- Material Requirements Planning (MRP)
- Capacity Requirements Planning
- Capacity Management
- Production Activity Control
- Input/Output Control
- Aggregate Inventory Management
- Item Inventory Management
- Purchasing
- Physical Distribution
- Quality Systems
- Lean/JIT
- Theory of Constraints

**APICS CPIM classes are extremely popular with a wide range of professionals, including those involved with:**

- Supply Chain Management
- Inventory Planning and Control
- Operations Management
- Planning & Scheduling
- Materials Management
- MRP, CRP, DRP, PAC, APS, S&OP
- Production supervision
- Purchasing
- Order fulfillment
- Information Technology
- Operations Cost Accounting

### **Class Dates, Pricing and Logistics:**

**CPIM Part 1 (Basics of Supply Chain Management)** classes are scheduled to start in August, 2021 and meet for a total of 30 hours spread out over 2 months.

Classes will be very interactive online classes, with live instruction. All classes are taught by an APICS Master Instructor with decades of practical experience, who spends extra time (beyond class time) helping his students learn the material.

Our classes are offered on Fridays and Saturdays during the day, as well as on weekday evenings. Class times and dates, including the date of the first class, are chosen with student input in order to minimize scheduling conflicts.

Customized and in-house training sessions are also available.

Course registration fee: \$1600 per person before discounts and scholarships. All course materials are included.

**Space in this BSCM course is limited, so early registration is recommended.**

Please email [BSCM@AkronAPICS.org](mailto:BSCM@AkronAPICS.org) to get more information and to receive the registration materials.
