Career outlook

Extracting, refining, analyzing, and delivering data has enormous value in today's Big Data boom. Organizations need them to harvest data and turn it into information and insights that drive actions and shape strategies. KU's graduate certificate in applied data science can help prepare you for a successful career in this high-demand field. Offered through the KU Medical Center, the certificate complements prior education or careers in business, finance, accounting, marketing, education, mathematics, and health care. Take classes online to further your education on your schedule.
