

Patient outcomes depend on better transportation

 **Single Source of truth for all rides**
View completed and scheduled rides for all riders and access real-time data to optimize resources

 **Access any vehicle type**
Lyft, Uber, Taxi, Medical Sedan, Wheelchair Van, Stretcher Van, BLS, ALS, SCT/CCT

 **Any payer type accepted**
Facility, Rider, Medicare, Medicaid, Private Insurance

Roundtrip provides healthcare professionals — care coordinators, case managers, social workers, nurses and more — with an easy-to-use online and mobile platform that connects patients with non-emergency medical transportation (NEMT). Through our network of non-emergency medical transportation providers, we are built to make ordering patient rides simple and fast, ensuring patients have a ride to and from their point of care.

4.9/5

Patient satisfaction

How it works:

Trusted by the best in care:

Does your organization struggle with any of the following?

- Patient no-shows
- Patient satisfaction
- Ride timeliness
- Ride costs
- ER utilization
- Acute length of stay
- Unnecessary re-admissions
- Follow-up visit adherence
- Amount of time booking rides
- Too many solutions to stay organized
- Working at the top of licenses
- Utilization of internal vehicle fleet
- Operational efficiency
- Access to real-time data and reporting
- Scheduling rides in advance
- Ride status notifications

If you any of the above, there is a better way. **Roundtrip.**
