MATCO TOOLS

PRO ASSIST

Matco's ProAssist offers any auto repair shop the ability to accept more jobs and operate more efficiently.

ProAssist gives any shop instant diagnostic expertise through a Professional Diagnostic Remote Support team of elite OE trained master technicians.

VEHICLE TECHNOLOGY HAS CHANGED. YOUR REPAIR SOLUTIONS SHOULD TOO.

Simplify the solution with ProAssist!

Today's auto service shops need to have factory tooling to fix today's cars. Having them on hand for all manufacturers is expensive and requires certain expertise. This causes an increase in: sublet work (mobile tech, dealership, specialty shop) unbillable hours and an inability to find experienced, competent technicians.

Inability to find and access accurate repair information.

Repair processe are now chanllenged with restricted access and security related components.

More often an OE tool is required to complete the repair.

Technical Support provided through IVS 360™
- 100+ OE trained brand-specific master technicians
- Live remote support for all major U.S. domestic, Asian and European brands

Integrated CarDAQ-J2534 Pass Thru
- Perform diagnostic and programming functions with the most widely recognized and OE approved J2534 device on the market

Remote Assisted Programming (RAP®)
- Guaranteed results
- Complete programming events in-house

OE scanning
- Comprehensive vehicle scans completed by a remote team of factory-trained technicians
- Gain access to factory diagnostic tools in a cost-effective manner, without requiring extensive technician training
