

SAFE DRONES FOR INACCESSIBLE PLACES

INSPECTOR 3.0 BETA

Discover How Inspector 3.0 Will
Change the Way You Look at Your Data

Tuesday, December 15 2020

04:00 PM - 04:50 PM CEST

10:00 AM - 10:50 AM EST

MODERATOR

Zacc Dukowitz
Content Marketing Manager
—Flyability—

PANELISTS

Simon Kumm
Managing Director
—InspecDrone—

Marc Gandillon
Marketing Director
—Flyability—

AGENDA

- 1 10' Marc Gandillon, Flyability
Why a new version of Inspector?
Inspector 3.0 in one minute
- 2 10' Simon Kumm, InspecDrone
Case studies
- 3 5' Marc Gandillon, Flyability
Beta tester program
- 4 20' Q&A

WEBINAR ENGAGEMENT

Ask questions during the webinar.

The image shows a screenshot of the GoToWebinar Control Panel. It features a 'GoToWebinar Control Panel' title bar with standard window controls. The main interface is divided into sections: 'Audio' with radio buttons for 'Computer audio' (selected), 'Phone call', and 'No audio'; a 'MUTED' status indicator with a microphone icon; dropdown menus for 'Built-in Microphone' and 'Built-in Output'; a 'Talking: Communication Flyability' section; and a 'Questions' section with two text input fields. The first field contains 'Q: This is a test question' and the second contains 'Q: Type your question here if you have one.' Below these is a larger text area with the placeholder 'Type question here.' and a 'Send' button with a paper plane icon. At the bottom, it says 'Test Webinar', 'Webinar ID# 679-368-763', and 'This session is being recorded.' with a red dot icon, followed by the GoToWebinar logo.

will be sent to you afterward.

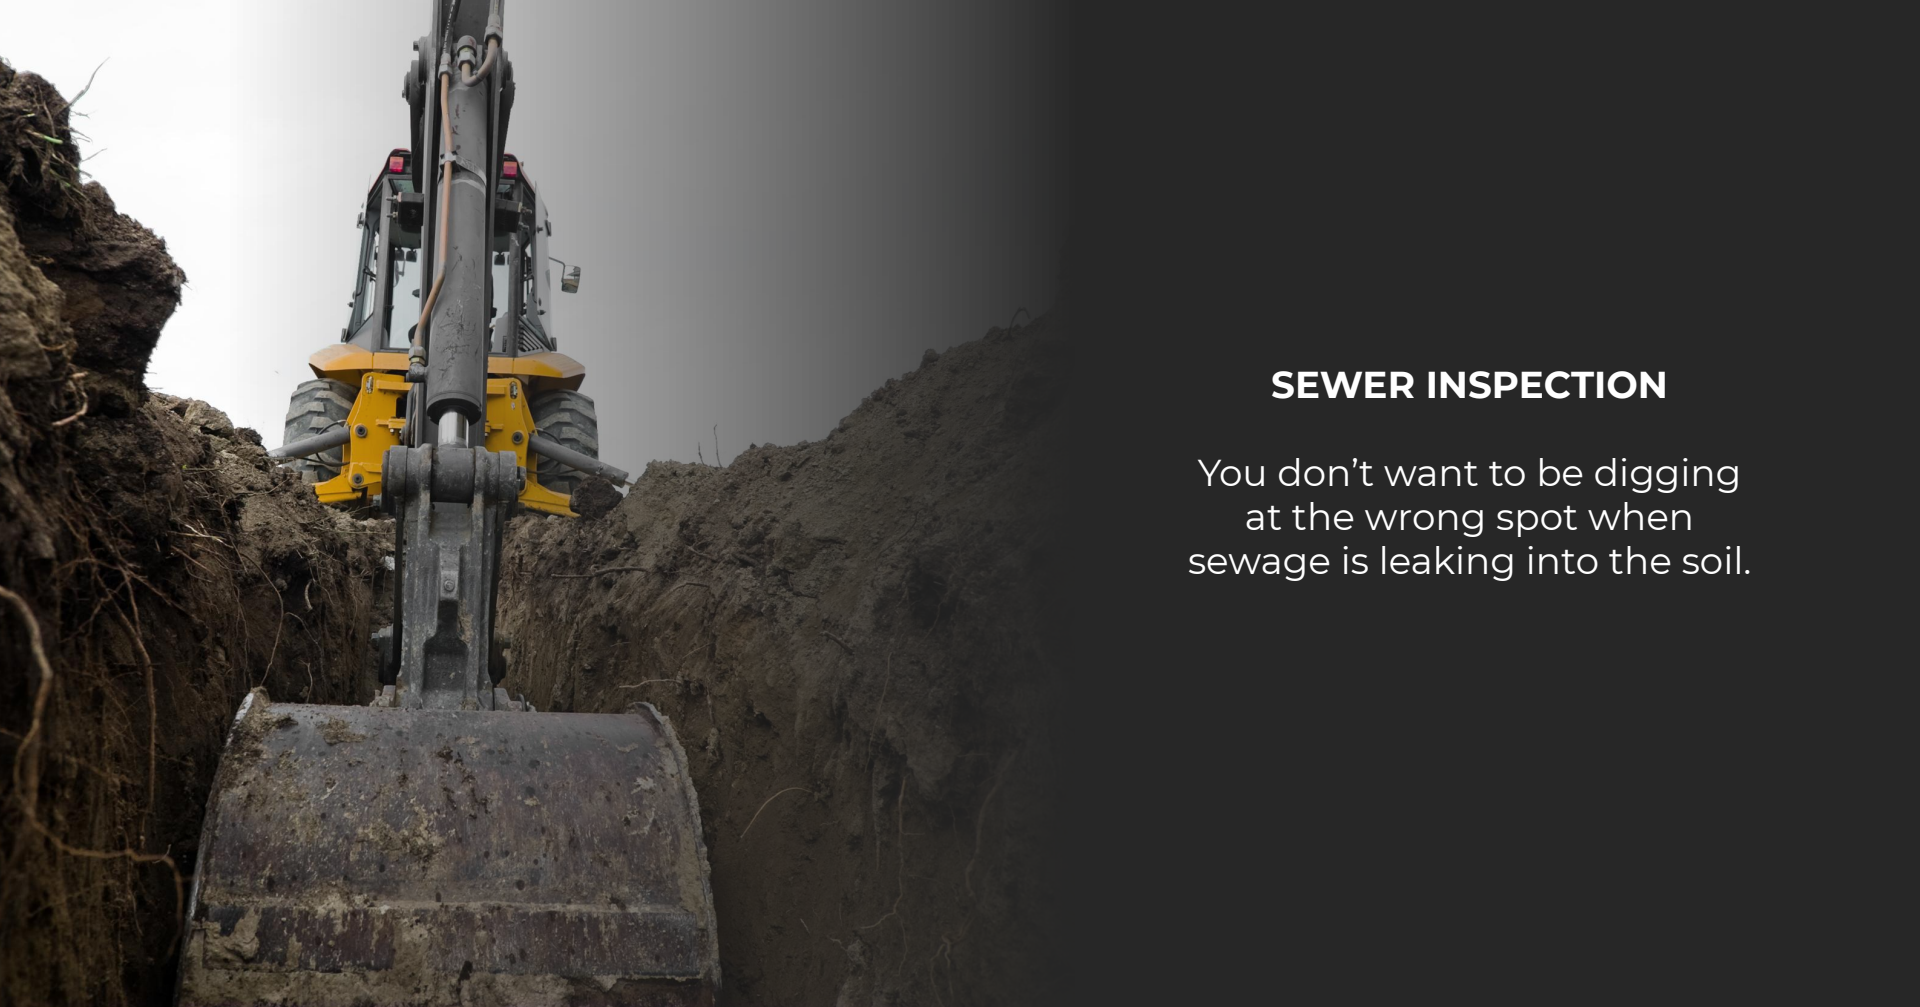

Why a New Version of Inspector?

Marc Gandillon
Head of Marketing

WHY A NEW VERSION
OF INSPECTOR?

SEWER INSPECTION

You don't want to be digging
at the wrong spot when
sewage is leaking into the soil.

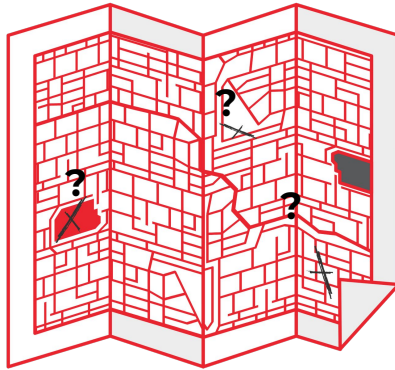

BOILER INSPECTION

Which of these burners is broken? How high and how large should I build scaffolding to fix it?

Visual Inspections Are Even More Powerful When You Can Match The Data with Where It Belongs

Don't let disorganized data dictate the success of
your asset maintenance operations.

Why a Beta Version?

Assessing mapping
robustness

Setting priorities
for future features

Improving product
reliability

Prerequisites

- Owning an Elios 2
- Knowing your drone's Hardware ID
- Agreeing with usage data sharing
- One beta registration per drone

Expectations

- Free until further notice
- Software provided “as is” and “as available” — No guarantee
- Support team available to answer your questions
- Feedback is not mandatory but will be appreciated

Start Making Sense Of Your Data Today

1. REGISTER

Click the "BECOME A BETA TESTER" button below and register for the best tester program. To complete the registration process you will be asked for your Hardware ID.

2. DOWNLOAD & INSTALL

You will get an email with instructions to download and install Inspector 3.0. You will also need to upgrade the firmware of your drone to the latest version.

3. ENJOY

Follow our video that shows how to process your first flight and start looking at your data like you've never before. You can also use our sample data if you can't wait to get your own datasets.
