# Digital cloud faxing solution built for modern business

**G12** communications

## 5 WAYS YOU CAN FAX

**1**
### Fax machine or multi-function printer
Our HIPPA compliant technology securely receives and sends faxes from your on-premises fax machine or multi-function printer.

**2**
### HIPPA compliant fax portal
Log into your fax portal to securely send and receive faxes. Receive email confirmation of faxes sent, received or failed.

**3**
### Electronic fax account
Send and receive fax documents directly into/from your email account.

**4**
### HIPAA compliant fax to network folder
For high volume inbound fax applications, G12 can securely deliver faxes to a network folder inside your LAN.

**5**
### Integrate with core processing applications
Send and receive faxes directly from most applications (Requires professional services engagement).

## Send and receive faxes by email wherever you are

Modernize the way your business sends faxes with G12 Communications cloud fax solution. Simplify and streamline the entire fax process with a solution that's flexible, improves visibility, scales with your company, and cuts costs.

Don't wait to send a fax. Cloud faxing lets you send faxes whenever you need to from anywhere by sending an email.

Receive faxes within one or many email inboxes as PDF's, making them more visible and accessible than ever.

*"We transitioned our fax service from costly analog lines to G12 fax service. We were able to save a lot of money by moving over to G12's fax service."*

Industrial Manfucturing**

# Modernize the way your company sends faxes

## Enhanced document visibility

Maintain complete control and visibility over essential documents. Cloud faxing guarantees that any fax you send is safe and always accessible through your email platform.

## Save money on every fax

Eliminate the cost of a fax machine entirely. Spend less on paper, fax machine service calls, and more time focusing on core business activities.

## Send faxes from anywhere

Send and receive faxes from any location using your desktop, tablet, smartphone, or fax machine. Stay connected and share important documents from anywhere in the world.

## Improve team productivity

Avoid lineups and error messages with a modernized approach to faxing. Save time and money with cloud-based electronic faxes.

## Unlimited scalability

Effortlessly scale to meet higher demand—without the need to purchase boxes of paper and new fax machines.

## Experience total flexibility

Invest in a fax system that adapts your needs. Cloud faxing makes it easy for you to send and receive faxes from any device.

## Integrated with business phone service

Safely store your faxes in compliance in a web-based portal through G12's Business Phone service.

## Ongoing support

Get the support you need when you need. We offer 24/7 helpdesk support, as well as access to expertise in a range of cloud communication services.

## Transform the way your business sends its faxes
