Connect to Teams

Add full Microsoft Teams calling to your existing IP PBX system

G12 communications

Microsoft Teams isn't changing the game, it's redefining it

Remote work is the new norm, and industry-leading companies are fully embracing and realizing the significant benefits that Microsoft Team's all-in-one environment has to offer. A fully-integrated Microsoft Teams calling solution offers access to flexible remote communications and an intuitive user experience that's built for collaboration.

Take your IP PBX to the next level using native voice with Microsoft Teams

Are you looking to improve the way your teams connect? G12's industry-leading technology gives you all the tools you need to get the most out of Microsoft Teams.

Drive more value out of your existing PBX solution by connecting your existing phone system to Microsoft Teams and Office 365. There's no need for complex integrations, number porting, or extensive user training.

By the Numbers

83% of employees rely on technology to collaborate

75% of UCaaS users report higher levels of productivity

91% of users say UCaaS leads to better collaboration

88% of users feel they solve problems faster

Remote work can save companies up to **$11,000/ year** per employee

Highlights

Fully compatible with your existing on-premises IP PBX

Continue using your existing dial tone phones

Customer PBX controls the calls for SIM Ring

Simple per user pricing model

Requires Microsoft Teams "Phone System" add-on

Why use G12 Connect to Teams?

Extend the life of your existing PBX system

Reduce your IT costs and keep using your existing PBX system with G12's Connect to Teams solution. Turn your Cisco, Mitel, Avaya, or other IP PBX systems into a fully integrated, feature-rich cloud mobility solution.

Keep the same numbers and extensions

G12 Connects Teams minimizes disruption by layering on top of your existing system, allowing you to keep the same numbers, extensions, and call-flow structure.

Scale on the go as you grow

Cloud technology gives you all the tools you need to scale and grow. Quickly add new users whenever you need mobility and give them access to an all-in-one ecosystem that's built for remote work.

Simple per user pricing

Keep control of your costs with predictable per user pricing. You can easily add new users at any time.

Enterprise-grade functionality and availability

Direct routing technology lets you unlock the full potential of Microsoft Teams. From crystal clear communications to 99.999% uptime, you never have to worry about dropped calls and service outages.

Access to a US-based support team

With G12, you're never alone when you have technical questions or need support. Connect with our team of US-based B2B communications specialists.
