

Teledentistry.com + Curve Integration Enables Curve Customers to Deliver No-Touch Care to Their Patients

Curve Dental customers can now take advantage of the full benefits Teledentistry.com can deliver to their practice:

Maintain communication with patients in a HIPAA-secure environment

Offer remote, billable services including emergency care and follow-up exams

Eliminate dual data entry

Connect with patients via their smartphones

Scheduling is a Breeze

- Talk to your own patients through our smartphone app
- Optimize your schedule by knowing what the patient's issue is prior to making the appointment
- Schedule post ops and ortho appointments virtually

Deliver Benefits Your Patients Will Appreciate

- Eliminate unnecessary trips to the office
- Receive treatment from the comfort of home
- Minimize time away from work
- 24/7 availability for emergencies

Achieve Higher ROI Marketing

- Highly targeted patient capture
- High ROI service seamlessly integrated into marketing efforts

Provide After-Hours Patient Management

- Increase customer retention by offering existing patients emergency/urgent care
- Build patient relationships by being more accessible
- Available as back-up call emergency service

Optimize Scheduling

- Open up your scheduling by moving routine appointments to the Teledentistry.com platform
- Fill empty slots with high-value

Curve is Rated #1 By G2

G2, the world's largest tech marketplace, ranks Curve Dental #1 in 6 major categories for dental practice management software.

- High Performer
- Easiest Admin
- Easiest to Use
- Easiest Set-Up
- Best Support
- Easiest to do Business With

Highly Recommended by Your Peers

Curve Hero's Net Promoter Score (NPS), a business-wide metric that measures the willingness of customers to recommend a company's products or services to others, blows away the competition.
