

The Valedictorian of Dental Report Cards

We've gotten really high marks for our fully customizable snapshots of financial and patient data.

Choose from a large selection of standard dental reports written for you or easily customize them so you can view information the way you want it. Reposition a column, change or remove filters on the fly, and your reports are updated in a flash. Even save a template you've created for future use. If the flexibility of Curve Hero's reports seems endless, maybe it's because it is!

Key Reporting Features
