

Business Intelligence. A Crowning Achievement.

Game-changing information to chew on for your dental practice.

Curve Dental Business Intelligence (BI) combines our standard dental reports, custom report functionality, and Playbook Dashboards to provide actionable insights into the most important financial and operational aspects of your dental practice. Use Curve Dental BI to maximize your practice efficiency, profitability, and patient experience.

Key Business Intelligence Features

Operational Dashboards

- Actionable insights, updated daily, into the most important financial and operational metrics for your practice
- Answer critical questions related to Scheduling, Treatment Plans, Recare, Production Plans, Referrals and Collections
- Easy to read and understand charts and graphs

Easy categorization

Operational dashboards are grouped into categories to make it easier to navigate through your practice's financial trends

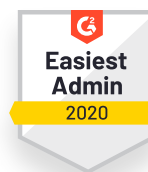

Playbook Dashboards

Dashboards display 6 key performance indicators (AR, Collections, Production, New Patients, Recare, and Treatment Plan Value) to summarize your practice's overall performance

Don't wait until the end of the month to get answers to questions like:

- Am I on target for my production goals this month?
- How many patients do I have on a Recare schedule, and how many have an appointment set?
- Is there enough work to hire another Dentist/Hygienist?
