

# Dental Imaging Software – Reimagined

## Capture, store, and access your favorite smiles to and from the cloud in real-time.

You bet your iris! We've simplified things by pre-setting image manipulations, capturing digital images, and securely storing them in the cloud in real-time.

Robust imaging features can be easily added to Curve Hero, eliminating external bridges or cumbersome third-party integrations.

### Key Imaging Features

#### Ease of use

- By overlaying FMX images over patients' restorative charts, you get a clear understanding of what you're examining
- Easily control the opacity with a sliding bar to view the image with or without the chart
- All images are integrated with the patient record, so you can access all the information you need in one place

#### Ease of Accessibility

- Easily access images from anywhere via a Chrome internet browser
- All images are safely backed up to the cloud in real time
- Data storage and cybersecurity are included in your monthly Curve Dental subscription

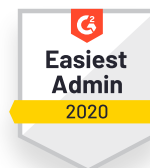

#### Image manipulations

- Save time by recording and saving a series of preferred manipulations and filters
- Apply a saved set of adjustments to any images with a click of the mouse
- Easy adjustments for contrast, brightness, gamma, rotate, sharpen, and invert

#### Measurement tools

- Measure root depth angles, signifying impingement, areas, and distances for abnormalities and pockets
- Trace paths through the anatomy to establish the right treatment approach
- Save all measurements, notes, and images directly to the patient record

# Imaging Compatibility

Curve understands the complexity of your infrastructure and the hardware investments you've made. We work hard to deliver you with flexibility by continually enhancing Curve Hero's compatibility with leading brands.

## Digital X-ray Sensors

Carestream 6200  
Cyber Medical Imaging XDR  
DEXIS Titanium by KaVo  
DEXIS Platinum  
Gendex GXS-700 (blue sensor)  
Image Works (EVA)  
Jazz Imaging Solo  
KaVo IXS  
And more  
Masterlink EDLENI Apex  
Planmeca ProSensor USB\*\*  
Schick 33  
Schick CDR with HS Remote (white box only)  
Schick Elite with Elite Remote or HS Remote  
Schick WiFi  
Vatech EzSensor  
Vatech EzSensor P  
Video Dental Concept QuickRay

## 2D Digital Pans

CS 8100 Digital Panoramic System  
CS 9300 System  
Planmeca ProMax 2D S2  
Planmeca ProMax 2D S3  
Planmeca ProOne  
Sirona ORTHOSPHEOS XG 3  
Sirona ORTHOSPHEOS XG 5  
Sirona ORTHOSPHEOS XG 3DReady  
Sirona ORTHOSPHEOS XG SL Ready

## Phosphor Plate

ScanX (Models)  
Classic F3700  
Ortho F3750  
I/O F3600  
Duo D1000F  
Swift G8000

## Intraoral Cameras

Acteon Sopro (Soprolife, Soprocure, Sopro 717, Sopro 617)  
Air Techniques CamX  
Polaris and Spectra intraoral cameras  
Kodak/Carestream 1500 intraoral camera  
Digital Doc Iris intraoral USB 2.0 camera  
Digital Doc Iris HD USB 3.0 intraoral camera  
Schick USB Cam 4 intraoral camera

## Bridges to Other Imaging Software

Apteryx Generic (Other OEM's include; Prof.Suni, Dr. Suni, ImageDDS, CliniView, CliniTouch, MPDx, VisionDent, Belmont XV, Belmont XV Lite, DentiMax Advance Imaging, DentiMax Imaging, MaxiViewer, MaxiViewer Lite, Lightyear, and QSI Image)  
CADI (Synca)  
CaptureLink  
CDR-DICOM (Sirona)  
DEXIS  
And more  
DTX Studio Bridge  
Kodak Dental Imaging (Carestream)  
Patterson Imaging  
Romexis (Planmeca)  
RadioVision Bridge  
Sidexis (Sirona)  
Tigerview (Televere)  
Visix (Air Techniques)  
Vixwin (Gendex)  
XDR (Cyber Medical Imaging)  
XrayVision and XVlite (Apteryx Main imaging software)
