

Virtual Classroom Training Overview

What you need to know

Virtual Classroom Training is for teams who work remotely and in-person.

Virtual training occurs as a synchronous online event, with participants and a trainer meeting together at the same time. Virtual training uses software specifically designed for real-time collaboration on the web (e.g. Zoom, Microsoft Teams, GoToMeeting).

Compare Virtual Classroom with other types of training based on typical training factors:

	Webcast	Webinar	Online Training	Virtual Training
Audience size	Large	Any size	Individual	Small (<25)
Audience engagement	Low	Low to mid	Mid	High
Predefined learning objectives	No	Some	Yes	Yes
Face-to-face equivalent	Presentation or meeting	Seminar or lecture	--	Classroom training

Virtual Classroom Training increases student engagement with:

- Gamification and Contests
- Quizzes
- Discussion through the chat function
- Workshop breakout rooms (small groups)
- Whiteboards
