General Associates

Work Towards Bachelor (Associates plus 50 credits)
(2011 - 2015)

University of Wisconsin-Milwaukee
Political Science

PROJECTS (github.com/NicholastheDevJacobs)

ROBODEX (Capstone 2020)

Started as an organization application for unique items. Transformed into a social site where users can view one another's inventories, and purchase/trade. Developed in ASP .NET Core, built with the Data Repository Design Pattern.

WHAT'S COOKIN' (Group Capstone 2020)

A successful experience working in a group setting. This project allowed cooks to collaborate on recipes together in a social media setting. A randomization effect paired with a tagging system allows users to find, "What's Cookin'". Developed in ASP .NET Core, built with the Data Repository Design Pattern.

WORK HISTORY

TRANSFER PIZZERIA AND CAFE (2015-Present)

- Honed my customer service skills as a bartender, tastemaker, and salesperson.
- Managed, maintained, and organized the bar and front of house.
- Worked creatively to create cocktail recipes for rotating seasonal menus.
- Fostered relationships with a diverse group of staff and clientele.
