

How You Can Use GrantAlytics to Optimize Your Grant Reporting

GrantAlytics was built for nonprofits to optimize their pre-award and post-award grant management and budgeting processes.

GrantAlytics integrates with your time and attendance and payroll systems to seamlessly deliver both holistic and detailed looks at your actuals vs. budget. It was developed specifically to help nonprofits stay focused on their mission by reducing the time required to aggregate data from disparate systems, improve grant and program reporting accuracy, stay compliant and provide better visibility into over and underspending.

Why GrantAlytics?

Every year, **nonprofits waste countless hours on grant budgeting, reporting and tracking instead of focusing on their mission.** It's a mess of data across a sea of software programs that don't work together. Most non-profits are still using spreadsheets to track their grant performance and budgeting. This means their reporting is subject human error and therefore isn't painting an accurate picture of grant performance.

Traditional Methods

- ✗ Spreadsheets are 80% error-prone
- ✗ Grants in the pre-award stage don't have reporting infrastructure in place
- ✗ Manually tying together data from multiple sources (more errors!)
- ✗ No clean way to reconcile down to an individual's spend
- ✗ Delayed totals from a slow accounting system
- ✗ Lower productivity thanks to duplicate efforts and errors
- ✗ Missed funding because you couldn't prove prior performance
- ✗ Spreadsheets that look unprofessional to auditors
- ✗ Hours of time lost on tedious reporting

vs

Using GrantAlytics

- ✓ Error-free data reporting based on actual data, not estimates
- ✓ Higher visibility into your grant performance
- ✓ Seamless integration with your existing time & payroll systems
- ✓ Ability to maintain individual, detailed budgets by grant
- ✓ Data and dashboards are refreshed every pay period
- ✓ Higher team productivity
- ✓ Proof of performance and detailed reports to back it up
- ✓ Better preparation for audits
- ✓ More time to focus on your mission

Who is GrantAlytics for?

Nonprofits with 5+ active grants or outside funding sources requiring budget tracking.

- Have fewer than five grants? GrantAlytics can still be valuable for organizations that have Federal grants or a grant with multiple phases.

Nonprofits with 2+ grant managers who create budgets, monitor actual spend and report to funding sources.

Nonprofits with 20+ employees working on grants.

Grant managers using spreadsheets for managing grants or an accounting system to determine grant spend vs. budget.

Grant managers spending 8+ hours a week on grant management and reporting tasks.

Frequently Asked Questions

How long does it take to implement?

- 3– 4 weeks

How long are reports available?

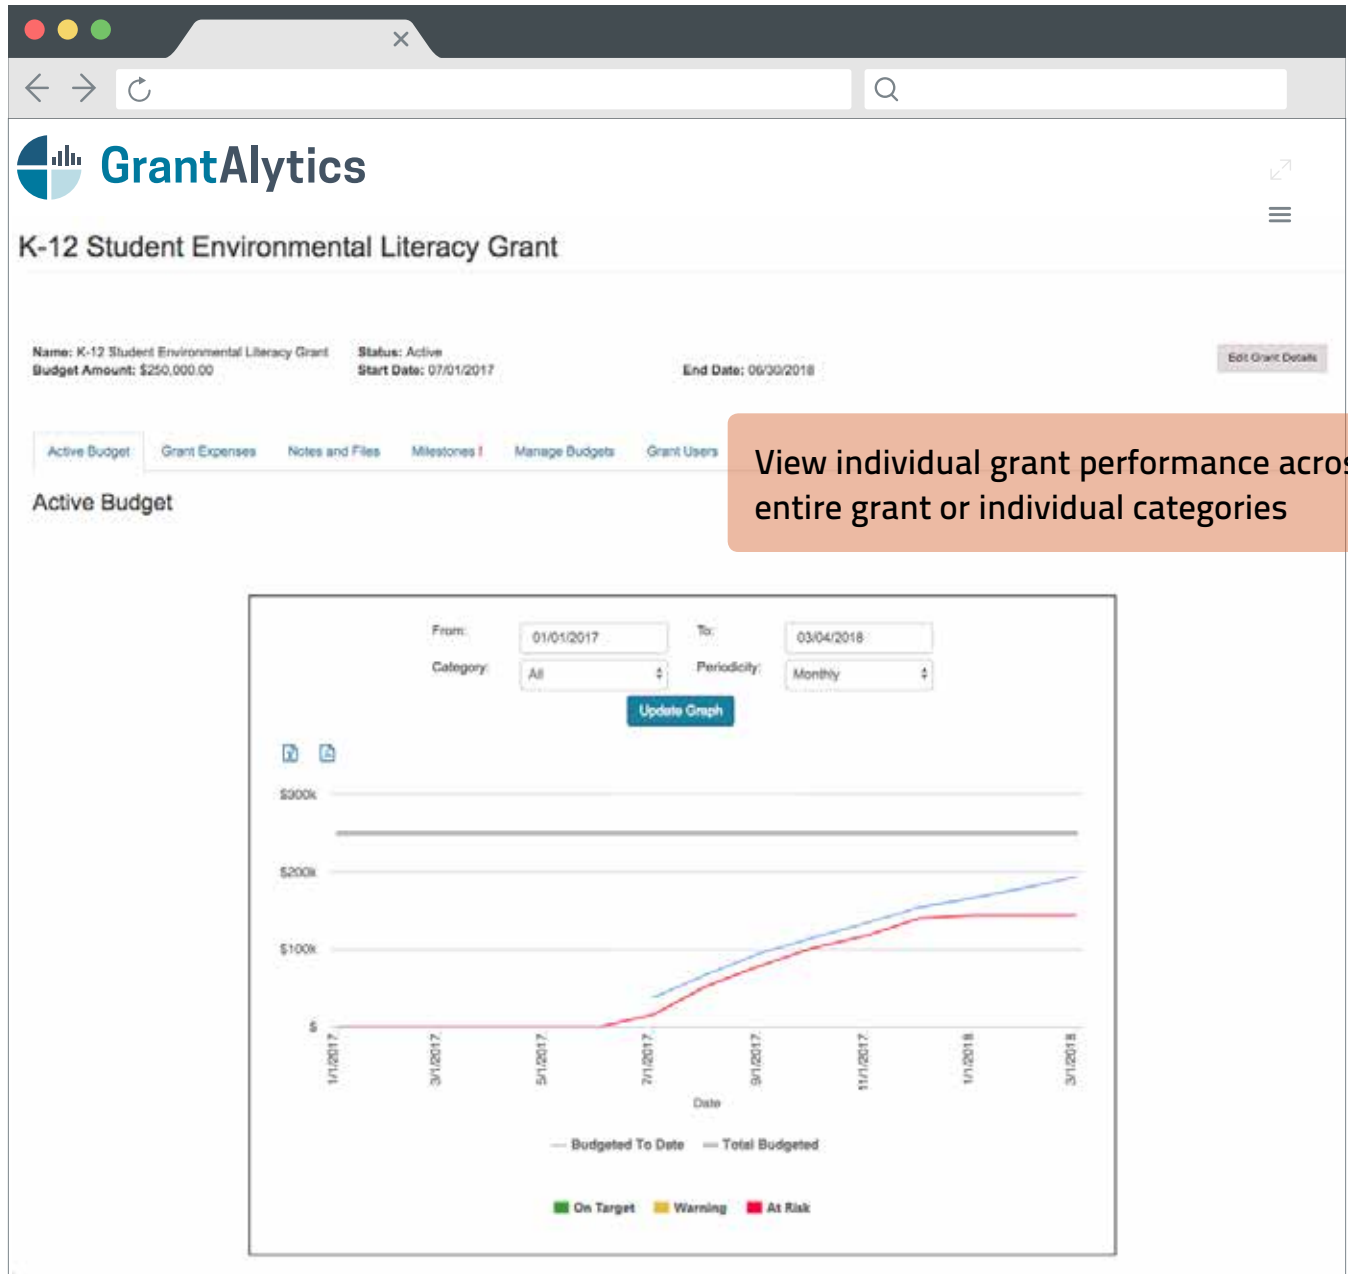

- Indefinitely with the monthly subscription. You can also export grant actuals vs. budget and related information at any time.

Do I need a time & attendance system? Payroll system?

- Many funders require time sheet level detail so for those grants/ programs you must have an automated time-and-attendance software. If your funding sources do not require time sheet level detail, GrantAlytics can use your payroll system's data to populate the actual spend.

What Does GrantAlytics Reporting Look Like?

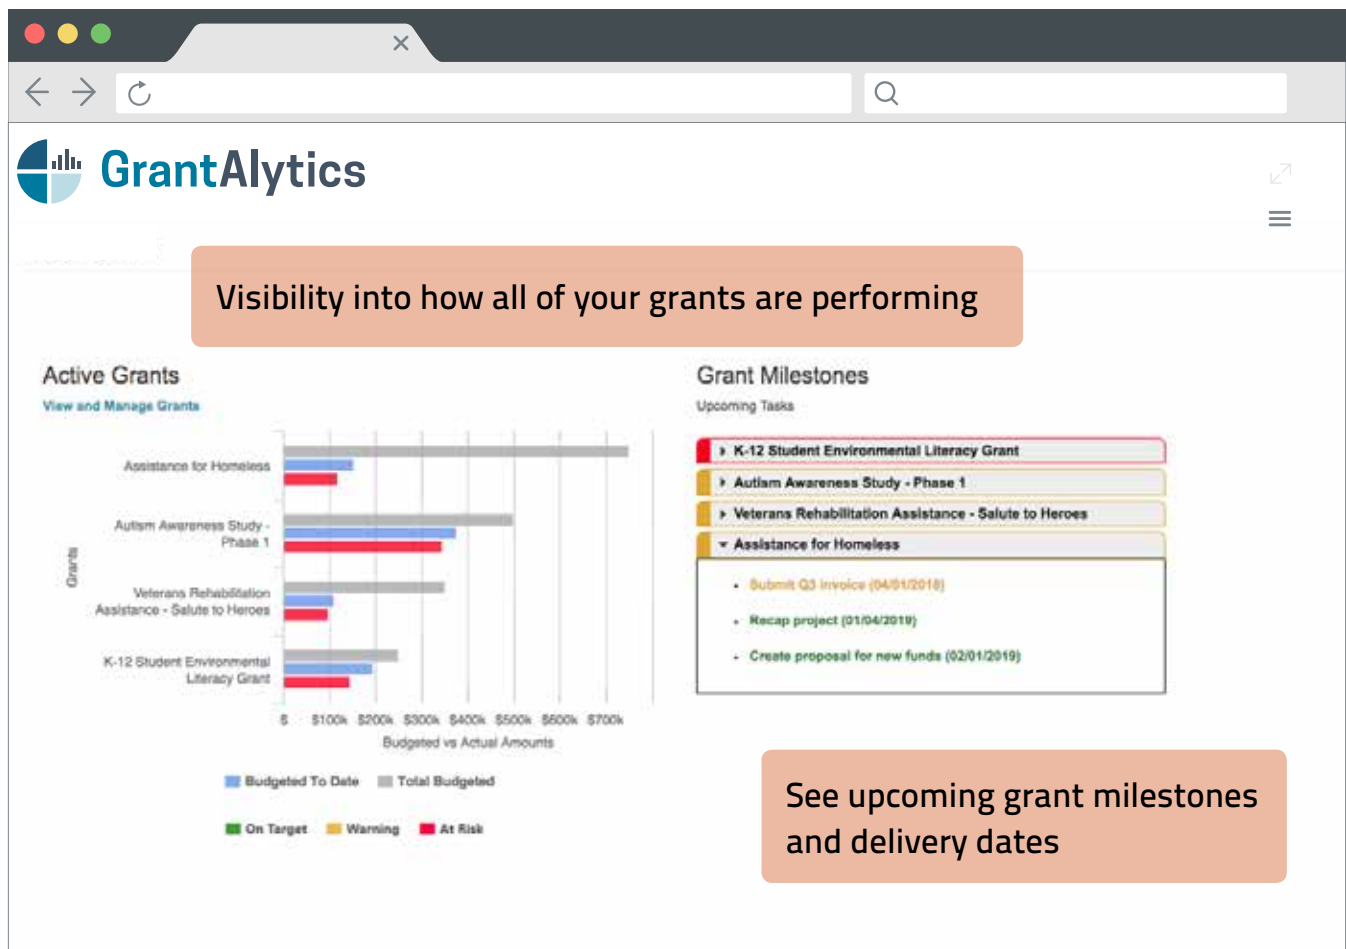

Grant compliance for many nonprofits means providing accurate, detailed accounting of time and dollars spent on your grant. Because GrantAlytics works seamlessly with your HCM system, you can get integrated TLM, Payroll, Expenses and Dashboard data quickly so you can have clarity on how grants are performing and why. Best of all, you'll have actual data, not estimates.

Visual display of budget vs. actual by each month and variance amount

What Does GrantAlytics Reporting Look Like?

Armed with accurate data and projections, you will be alerted with color coded performance indicators on the active grant dashboard when overspending or underspending thresholds have been met at the individual grant employee, role, or non-labor expense categories. Executive Directors, CFO Grant Managers and Program Managers will have piece of mind they are prepared for audits with accurate reporting, can course-correct spending with improved visibility, and stay compliant with milestone tracking.

What Does GrantAlytics Reporting Look Like?

The screenshot displays the GrantAlytics web application interface for a grant titled "Autism Awareness Study - Phase 1". The header includes the GrantAlytics logo and a search bar. The main content area shows grant details: Name (Autism Awareness Study - Phase 1), Grant Type (Federal), Funding Source (NIH), Status (Active), Budget Amount (\$500,000.00), Start Date (06/01/2017), and End Date (05/28/2018). A navigation bar includes tabs for Active Budget, Grant Expenses, Notes and Files, Milestones, Manage Budgets, and Grant Users. The "Manage Budgets" section is active, showing a dropdown for "Select Budget to Manage" set to "Post award budget (Active)". Below this, a budget card displays details for the "Post award budget" (Active - Read Only), including start and end dates, total amount, and buttons for Edit Budget Details, Activate Budget, Simulate Budget, Delete Budget, and Copy to New Draft. A callout box highlights the "Configure budgets by grants using customized categories" feature. The bottom section shows "Budget Personnel" and "Budget Expenses" with associated costs and cost-share amounts.

Grant Details:

- Name: Autism Awareness Study - Phase 1
- Grant Type: Federal
- Funding Source: NIH
- Status: Active
- Budget Amount: \$500,000.00
- Start Date: 06/01/2017
- End Date: 05/28/2018

Manage Budgets

Select Budget to Manage: Post award budget (Active)

Budget Card:

- Budget Name: Post award budget
- Budget Status: Active - Read Only
- Last Update: Kit Dickinson, 08/20/2017 09:11 AM
- Start Date: 06/01/2017
- End Date: 05/28/2018
- Total Amount: \$500,000.00

Budget Personnel:

Personnel	Amount	Cost-Share
Executive Director	\$78,125.00	\$30,000.00
Hope Solo (Program Leader)	\$106,250.00

Mia Hamm (Classroom Leader)	\$43,750.00	
Programmer 1	\$62,500.00	\$25,000.00

Budget Expenses:

Category	Amount	Cost-Share
Equipment	\$50,000.00	\$15,000.00
Meals	\$33,125.00	
Travel	\$30,000.00	\$10,000.00
Training	\$40,000.00	\$20,000.00

Summary:

- Current Total: \$500,000.00
- Cost-Share Total: \$120,000.00

What Does GrantAlytics Reporting Look Like?

The screenshot displays the GrantAlytics web application interface. At the top, there's a navigation bar with the GrantAlytics logo and a search bar. Below the navigation bar, a dropdown menu shows 'Live Budget (Active)'. The main content area is divided into two columns. The left column contains budget details: 'Budget Name: Live Budget', 'Budget Status: Active - Read Only', 'Last Update: Jackie Smith, 04/13/2017 05:20 AM', 'Start Date: 01/01/2017', 'End Date: 12/31/2017', and 'Total Amount: \$1,000,000.00'. A descriptive text block follows: 'This is the grant budget we are going to use for this awesome federal grant in which we use all of our tax payers dollars! yay us!'. The right column features four buttons: 'Activate Budget' (disabled, with a note 'Budget activated on 04/12/2017'), 'Simulate Budget' (disabled, with a note 'Can't simulate an active budget'), 'Delete Budget' (disabled, with a note 'Can't delete active budget'), and 'Copy to New Draft'. Below these columns, a section titled 'Budget Personnel' shows a table for 'Daniel Knapp II' with a total of '\$100,000.00'. The table has columns for 'Budget Date', 'Note', 'Salary', and 'Benefits', with data rows from 01/01/2017 to 08/01/2017.

Budget Name: Live Budget
Budget Status: Active - Read Only
Last Update: Jackie Smith, 04/13/2017 05:20 AM

Start Date: 01/01/2017
End Date: 12/31/2017
Total Amount: \$1,000,000.00

This is the grant budget we are going to use for this awesome federal grant in which we use all of our tax payers dollars! yay us!

CASE STUDY

Helping a Disaster-Relief Nonprofit Manage Their Funds

About SBP

SBP was founded in March 2006 following Hurricane Katrina. Their mission is to minimize time between disaster and recovery. During times of disaster when they are at their busiest, SBP has new grants coming in that they must manage.

The Problem

SBP's payroll and grant administrator, Brianna, was managing SBP's 30+ grants on spreadsheets before we met her. She was spending 25-30 hours a week allocating employee hours/earnings to grants, managing budgets, and creating reports to send to Americorps and other funding sources.

The Solution

IDI worked with the HCM team to deliver two IDI solutions to save SBP hours per week:

- IDI's grant/salary allocation solution to automate the allocations of employees' grant worked and non-worked time between time and payroll.
- GrantAlytics, the only grant budgeting and management tool fully integrated with the time and payroll modules.

With these new solutions Brianna can now quickly gain clarity on how each grant is performing and why with actual data from her time and payroll systems, not estimates. GrantAlytics provides SBP the means to take corrective action each pay period, giving them peace of mind and more time to focus on their mission of helping hurricane victims.

"GrantAlytics is awesome! I love getting off of spreadsheets! And being able to pull reports by cost number, enter new expenses, and see how things are going against the budget. Plus the dashboard is really convenient and easy to use!"

- Brianna Audibert, Senior Accountant, SBP, Inc.

How to Get Started With GrantAlytics

We collaborate with our partners for the pre-sales analysis and have a series of industry-specific questions for you to help determine your unique needs. We may also ask for sample files or examples. This will be followed up with an internal technical evaluation to determine the feasibility and scope, which will then be reviewed with you.

To get a pre-evaluation started, call us: 866-846-3226, Option 1, or email us: sales@idesign.com

We can also provide remote help with:

- Setting up grants
- Entering actuals
- Configuring user permissions
- Running reports
