DamageAssessment
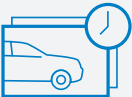

Streamline Accident Damage Assessment with Photos

Leverage photos captured directly from the accident scene to further streamline your accident workflow, enabling desktop appraisals, proper vehicle routing and **save up to 3-4X the cost of this upgrade.**
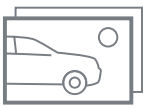

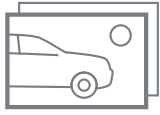

Benefits

This solution delivers across the 4 key initiatives for claims management:

1. LOSS COST

Reduce Costs Through Prompt Total Loss Determination
Access vehicle condition based on photos, avoiding shop rerouting, delays and added costs.

Simplify Claim Documentation & Recovery
Photos of damaged vehicle and associated case information can be appended for investigation.

2. EXPENSE

Quickly Drive Resolution with Proof of Vehicle Delivery
Photos required at vehicle delivery create a clear time stamped record.

3. CUSTOMER SERVICE

Reduce Cycle Time by Accelerating the Appraisal
Photos can be leveraged for desk appraisal, follow up field inspection or AI damage inspection models.

4. EMPLOYEE ENGAGEMENT

Increase Transparency for Your Team
Maintain transparency throughout the process with high quality time stamped photos.

How it Works

| Provider Captures Pictures at the Scene	Notification	View Pictures in Method of Inspection	Intercepting Total Losses	Accelerating Appraisal
MOST	**IMMEDIATELY**	**THOUSANDS**	**2–7 DAYS**	**$150–$170**
accident cases have photos accessible with this upgrade.	alert claims agent of pictures.	of high quality photos added everyday.	reduction in cycle time.	savings by avoiding more expensive inspection methods.
