

Workplace Screening Service to Manage Covid-19 and Beyond

OPERATING SAFELY IN THE NEW NORMAL

The global pandemic has created new threats to employee and customer health. **RimotHEALTH** allows people to touchlessly screen for indicators, keeping them and others safe.

RimotHEALTH is a cloud-based turnkey workplace safety service.

Screening Stations

Thermal Camera
& Questionnaire Screen

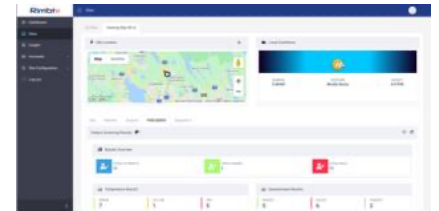

Foot Response Pedals

Organizations need on-site health status awareness to help protect essential workers and operations from virus threats. Real-time data facilitates risk awareness and informs operational decision-making. It is crucial to mitigate and manage community and site spread.

RimotHEALTH provides fast deployment kits for on-site screening at critical locations. With a thermal camera and automated questionnaires, the systems include a cellular link to facilitate remote web (and smartphone) monitoring for all locations, providing real-time data insights for informed decision-making. Built on the proven Rimot monitoring platform.

Data Insight Portal

SUITABLE FOR

- Transportation & Logistics
- Fire & Police Stations
