

Student feedback made easy

A screenshot of the ziptet web application interface. At the top, the ziptet logo is on the left, and navigation links for "CLASSES", "MENU", "FAVORITES", and a user profile icon are on the right. Below the navigation bar, the user's name "Ms Jones" and the subject "Creative Writing" are displayed. The main question is "How are you feeling about today's activity?". Below this question are five circular emoji icons: a sad face, a neutral face, a slightly smiling face, a happy face, and a very happy face. The fourth icon (happy face) is selected. Below the emoji row is a text input field with the placeholder "Enter response" and a character count "0/2000". A yellow bar labeled "Anonymous mode" is positioned above the bottom controls. At the bottom, there is a "Send anonymously" toggle switch (currently turned on), a "Skip for now" button, and a "Send response" button.

**Quickly let your
teacher know
how you're going**

**Responses are
private between you
and your teacher**
